Standard Authorization Attestation and Release

What is Standard Authorization Attestation and Release (SAAR)?

SAAR is a standardized process for federal contractors and grant recipients to attest to their compliance with security requirements and release sensitive information to the federal government. It establishes a set of common security controls and a standardized process for assessing and reporting on compliance.

Who is required to comply with SAAR?

All federal contractors and grant recipients that are required to protect Controlled Unclassified Information (CUI) must comply with SAAR. CUI is information that is not classified but requires protection from unauthorized disclosure.

What are the benefits of SAAR?

SAAR provides several benefits, including:

- Streamlines the security assessment process by using a standardized set of controls and reporting requirements.
- Reduces the risk of unauthorized disclosure of CUI by ensuring that contractors and grant recipients have implemented adequate security measures.
- Facilitates information sharing between the government and its contractors and grant recipients by providing a trusted framework for handling sensitive information.

How do I comply with SAAR?

To comply with SAAR, you must:

- Implement the security controls specified in the SAAR repository.
- Obtain an independent assessment of your compliance with the controls.
- Submit an attestation to the government that certifies your compliance.

What are the penalties for non-compliance with SAAR?

Non-compliance with SAAR can result in various penalties, including:

- Loss of access to government contracts or grants
- Suspension or debarment from government business
- Legal action for unauthorized disclosure of CUI
