

# 2006 jaguar s type owners manual download

## Download Complete File

Is the 2006 Jaguar S-Type a Worthy Investment?\*\*

The 2006 Jaguar S-Type offers a blend of luxury, performance, and British charm. But is it a sound investment?

### **Ford Engine Power?**

Surprisingly, the S-Type's engine is sourced from Ford, specifically their 4.2-liter V8. This powerplant delivers impressive performance, with 300 horsepower and 310 lb-ft of torque.

### **Manual Transmission Option?**

Unlike many modern luxury cars, the S-Type was available with a manual transmission. This option caters to enthusiasts who prefer the engaging driving experience of a manual gearbox.

### **Value and Longevity**

Used 2006 S-Types can be found for as low as \$10,000, making them an affordable entry point into the Jaguar brand. However, it's important to factor in maintenance costs, which can be higher than average. The S-Type has a reputation for moderate reliability, but regular maintenance is crucial for extending its lifespan. Some models have been known to reach over 200,000 miles with proper care.

### **Future Classic Potential?**

While not as iconic as some other Jaguar models, the S-Type has a loyal following and could potentially become a future classic. Its combination of style, performance, and rarity may appeal to collectors in the future.

### **The Meaning of "S"**

The "S" in Jaguar S-Type stands for "Sport," indicating its enhanced performance capabilities over the standard X-Type.

### **End of Production**

Jaguar discontinued the S-Type in 2008, after a production run of six years.

### **Who Builds Jaguar Engines?**

Most Jaguar engines are designed and manufactured by Jaguar Land Rover. However, as mentioned earlier, the S-Type's 4.2-liter V8 was sourced from Ford.

### **Reliability of S-Type Jaguars**

S-Type Jaguars have a mixed reputation for reliability. Regular maintenance and repairs can help mitigate potential issues, but some models may exhibit electrical problems, suspension issues, and transmission concerns.

### **Top Speed and Performance**

The 2006 Jaguar S-Type can reach a top speed of 155 mph. It accelerates from 0 to 60 mph in approximately 6.5 seconds.
