**How long is the biology AP exam?** What's on the AP Biology Exam? The AP Biology exam is three hours long and consists of two sections: a multiple-choice/grid-in quantitative section and a free-response section.

**What textbook is used for AP Biology?** Campbell's is the standard. I like the baby Campbell's "Biology In Focus". You can also avoid a textbook completely by using OpenStax.

**Is AP Bio hard to get a 5?** Only four subjects had lower 5 rates, which makes the AP Biology test one of the hardest tests to get a perfect score on. Questions 1 and 2 are long essays that ask students to interpret and evaluate experimental results.

**What percent is a 5 on AP Bio?**

**Is AP Bio the hardest AP?** The passing rate for the AP Biology exam in 2021 was 59.2%. This is a fairly middle-of-the-road passing rate, as compared to other AP exams; therefore, we can assume that the AP Biology exam has a medium level of difficulty.

**What grade do most people take AP Bio?**

**Is the AP Biology exam pencil or pen?** Students should bring the following: \*2 sharpened #2 pencils with erasers for multiple choice questions. NO mechanical pencils. \*2 pens with black or blue ink for free response questions. \*Up to 2 calculators with the necessary capabilities if taking an AP Biology, Calculus, Physics, or Statistics exam.

**Are all AP exams 3 hours long?** AP exams take between 2–3 hours to complete and are broken into two sections: multiple choice and free response. The amount of questions per section and the time allotted varies per test subject.

**Is AP Bio the hardest exam?** Yes, the AP Biology course is considered to be a hard AP course. The exam pass rate for 2022 was 67.9% in comparison to other AP exams. It is considered the 10th toughest AP subject when compared with all the 39 subjects.

**How hard is it to get a 3 on the AP Bio exam?** “Around 65% of students achieved a final score of 3 and above!” However, a pass rate of 65% is still not as high as other AP courses and reflects the hard work required to earn college credit by taking up AP Biology. Let's also look at how students did on the exam over the last three years.

**What is the longest AP exam?** It's important to be prepared for the length of AP exams, as they can be quite demanding. Generally, most AP exams are approximately 3 hours long. There isn't one specific AP test that stands out as being significantly longer than the others.
