delve into the intriguing story behind "the girl in 6E."

What Happened?

On the evening of March 4, 1955, the Lawrence family reported their 10-year-old daughter, Doris, missing. Neighbors witnessed a moving van belonging to the Redfern Removers parked outside the house around the time of her disappearance. Despite extensive searches, no trace of Doris was ever found.

Who Were the Redfern Removers?

The Redfern Removers were a group of itinerant movers who operated in the United Kingdom. They were known for their unusual behavior, including wearing red overcoats and hats and demanding payment in advance. Rumors spread that the group was involved in criminal activities, such as kidnapping and murder.

The Investigation

The police launched a massive investigation into the disappearance of Doris Lawrence. They questioned the Redfern Removers and searched their vehicles, but found no evidence of her. However, the movers' suspicious behavior and lack of alibis raised suspicions.

Unexplained Clues

Over the years, several unexplained clues have emerged in the case of the girl in 6E. A witness reported seeing a child's body being loaded into a Redfern Removers van that night. Additionally, a diary belonging to one of the movers contained cryptic entries that hinted at involvement in Doris's disappearance.
