How to pass the final exam in biology? Study the material weekly, not just before tests. Leave plenty of time between study and self-testing so you're not just testing short-term memory and repeat until you know that you can always get them right. Well before an exam, take a subset of the material and study it as if the exam on that topic was tomorrow.

How to answer biology test questions? Your first task is to determine what the question is asking. Then, decide what biological information you must introduce in order to provide a “biologically correct” and logical argument. Finally, organize your arguments in a clear and appropriate fashion. Do not include extraneous information; be succinct.
