Whether it's singing a solo, or sharing a personal item with the class, children gain confidence in their abilities and develop a positive self-image.

**How to make circle time fun?** A successful circle time session requires circle time ideas that promote group activities and keep toddlers with short attention spans focused. Preschool teachers can use a variety of activities such as story time, music stops or asking the children to clap or take turns around the circle.

**How can teachers make the most of circle time?** Find activities that allow children to participate. Children enjoy circle time more and behave much better if we give them ways to participate rather than demand that they simply sit and listen. Give the children a role in the story you are reading.

**What is the purpose of circle time activities?** Circle time is a time for important social interactions among young children. In short, when you see your preschoolers' attention waning, change the activity or end Circle Time on a positive note.

**What are the golden rules of circle time?** The Quality Circle Time model considers these universal values to be vitally important and calls them the Golden Rules: We are gentle, we don't hurt others. We are kind and helpful, we don't hurt anybody's feelings. We are honest, we don't cover up the truth.

**What is the circle method of teaching?** Students use a talking piece that moves around the circle in a clockwise direction. The student who has the talking piece is invited to speak, the students who don't have the talking piece are invited to listen.

Confidentiality holds in the circle. This is part of circle tradition, but is very important to adolescents.

**What are the 5 steps of circle time?** The Five Learning Skills of Circle Time are looking, listening, speaking, thinking and concentrating.
