#### **Why is the Drone Code Important?**

#### **What Are the Key Features of the Drone Code?**

The key features of the Drone Code include:

- **Visual Line-of-Sight (VLOS):** Operators must always maintain VLOS with their drone.

- **Altitude Limits:** Drones must be flown below 120 meters (400 feet) above ground level.
- **Airspace Restrictions:** Operators must comply with all airspace restrictions, including no-fly zones and controlled airspace.
- **Pilot Certification:** Pilots must be certified with Transport Canada if flying drones weighing more than 250 grams.
- **Flight Planning:** Operators must plan their flights in advance and be aware of any potential hazards.
