Is Mort a good place to start Discworld? Originally posted at Fantasy Literature. Mort is the fourth of Terry Pratchett's DISCWORLD novels. It stands alone, meaning that you don't need to read the previous novels to enjoy Mort. It's better than the previous novels, too, so it might be a good place for new readers to start.

Who does Mort marry? Mort and Ysabell – who have fallen in love over the course of the story – get married, and are made Duke and Duchess of Sto Helit by Keli, while Cutwell is made the Master of the Queen's Bedchamber.

What happens in Mort Terry Pratchett? Mort, by Terry Pratchett, is a satirical comedy about how Death takes young Mort from the fields, teaches him to collect souls, and takes a holiday to experience human pleasures. In Death's absence, Mort prevents an assassination and needs strong magic to repair the rift in history.

Can you start with Mort in Discworld? Death (centers on the character of Death [who has a lot of personality in the discworld]): Start with Mort (book 4), then Reaper Man (11), Soul Music (16), Hogfather (20), ... The world evolves as the author (and the characters) explore more and more of it and many characters tend to make cameos (Death especially).

Is Mort by Terry Pratchett funny? Death has never been this much fun! The man is a literary genius. This book is one of the first Discworld books that is legitimately, laugh out loud funny. The jokes aren't cheap, and they are so wonderful that you can't help but think about them days and weeks after reading it.

Should I start with Mort or guards guards? As you can see Mort is a separate series from the Rincewind novels (i.e. The Colour of Magic, The Light Fantastic, etc). Chip I highly recommend starting with this one.

Which Discworld books does Death not appear in? Death, a seven-foot skeleton in a black robe who rides a pale horse named Binky, appears in every novel except The Wee Free Men and Snuff, although sometimes with only a few lines. Is Mort a good first Discworld book? But while Mort is a lot fun, it's not the sort of book that kicks off a binge. For those who are new to Discworld, I'd certainly recommend giving it a couple chapters—scratch that, Discworld books don't have chapters. So give it a solid preview.
