**Who founded Indian history?** The founding of Indian history is a complex process that evolved over thousands of years. It is not attributed to a single individual but developed through the contributions of various ancient Indian scholars, including those who wrote about historical events and dynasties.

**What are the different types of Indian history?** Indian History can be classified into three periods: Ancient India. Medieval India. Modern India.

**Is the history of India was first written by an Indian True False?** The history of India was first written by an Indian. This statement is true, as ancient Indian texts like the Vedas, Mahabharata, and Ramayana were written by Indian scholars and historians.

**How old is Indian history?** The earliest known human remains in South Asia date to 30,000 years ago. Sedentariness began in South Asia around 7000 BCE; by 4500 BCE, settled life had spread, and gradually evolved into the Indus Valley Civilisation, which flourished between 2500 BCE and 1900 BCE in present-day Pakistan and north-western India.

**Who is father of History of India?** Megasthenes is known as the Father of History of India due to his pioneering work recording ethnographic observations as the first foreign ambassador to India. He arrived in India between 302 BCE and 288 BCE and his works are compiled into a volume called 'INDIKA'.

**What was India called before India?** Before the Constitutional Assembly in 1949, the country was known as Bharat, India, and Hindustan. While a good number of the drafting committee members preferred the old name, Bharat, many others favoured India. That's what led to the Constituent Assembly choosing both the names.

**What was India called in 1492?** In 1492 there was no country known as India. Instead that country was called Hindustan. I think that is closer to the truth that the Spanish padre that sailed with Columbus was so impressed with the innocence of the Natives he observed that he called them Los Ninos in Dios.

**Who were the first humans in India?** Ans : The first Indians were African hunter-gatherers. They came 50,000 years ago to the Indian subcontinent. Between 10,000 and 20,000 years ago, just after the last ice age ended, more immigrants arrived from what is now Iran. Migrants carried with them primitive farming skills.

**Which is the oldest civilization in India?** The Indus Valley Civilization, also known as the Harappan Civilization, marks the birth of Indian History. The Indus Valley was home to the largest of the four ancient urban civilizations of Egypt, Mesopotamia, India and China.

**Who found in India first?** The Portuguese discovery of the sea route to India was the first recorded trip directly from Europe to India, via the Cape of Good Hope. Under the command of Portuguese explorer Vasco da Gama, it was undertaken during the reign of King Manuel I in 1495–1499.

**Who came in India before British?** It was in the year 1526, Babur an afghan ruler from Kabul annexed Delhi Sultanate ruled by Lodi Dynasty and established Mughal Empire which gradually spread its wings all across the country. Who ruled India before the British? Mughals Empire ruled India before the establishment of British rule in India.

**Where did Indian originate from?** The First Amerindian Natives are postulated to have come from Asia through the Bering land bridge between 30,000–12,000 years before the present (BP). These conclusions have been based on cultural, morphological and genetic similarities between American and Asian populations.

**Who is older China or India?** Armenia - 2492 BCE. North Korea - 2333 BCE. China - 2070 BCE. India - 2000 BCE.

**What is the oldest city in India?** The correct answer is ?Varanasi. Varanasi is possibly India's oldest continually inhabited city and has been a cradle of Indian Vedic culture. Varanasi has been bustling with cultural and devout activity since the

Bronze Age collapse. Varanasi is one of the world's oldest continually settled cities.

**Which is the oldest state in India?** The oldest state in India is generally considered to be Bihar, with a rich history dating back to ancient times. It has been an important center for various dynasties and empires.

**Who is called Mother of India?** Bharat Mata (Bh?rat M?t?, Mother India in English) is a national personification of India (Bharat) as a mother goddess. Bharat Mata is commonly depicted dressed in a red or saffron-coloured sari and holding a national flag; she sometimes stands on a lotus and is accompanied by a lion.

**How old is India's country?** India (3,000 BCE): The land of silk and spices While official history books say that India dates back to around 3,000 BCE, it's believed that communities have existed on the land for at least 250,000 years.

**Who is the most powerful king in India?**

**What did the British call India?** During British colonial rule (approximately 1757-1947), the British referred to the Indian subcontinent as "India." This term was derived from the river Indus, which marked the western boundary of British India. The British colonial administration used "India" as the official name.

**Why Bharat is named India?** Indus River: The name 'India' has its roots in 'Indus,' the Sanskrit term 'Sindhu,' referring to the mighty river that traversed this ancient land. The Greeks and Iranians adapted it as 'Hindos' or 'Indos,' signifying the region east of the Indus River. Notably, the name 'Bharat' also played a role.

**What do East Indians call India?** Bharat is another name of India, as set down in Article 1 of the Constitution, adopted in 1950, which states in English: "India, that is Bharat,..." Bh?rat, which was predominantly used in Hindi, was adopted as a self-ascribed alternative name by some people of the Indian subcontinent and the Republic of India.

**Who first discovered India?** Under the command of Portuguese explorer Vasco da Gama, it was undertaken during the reign of King Manuel I in 1495–1499. Considered one of the most remarkable voyages of the Age of Discovery, it initiated the Portuguese maritime and trade presence in Kerala and the Indian Ocean.

**Who started the Indian civilization?** The Harappa culture, also known as the Indus River Valley Civilization, were the ancient ancestors of modern-day India. As the Harappa culture melded with the Indo-Europeans, also known as Aryans, they adopted Vedism, the faith of the Aryans. This began the Vedic period in which the Harappan culture melded with Vedism.

**Who wrote first Indian history?** The first comprehensive history of India was written by Henry Beveridge.

**Who came first for India?** Vasco da Gama, a Portuguese explorer was the first European to reach India on the Malabar coast through the Atlantic Ocean. He discovered the route to India through Cape of Good Hope in the year 1498.

**Why didn't L. J. Smith finish The Vampire Diaries?** LJ got fired because she didn't feel that that was right-- she wanted to explore both relationships, Stefan/Elena AND Damon/Elena, as well as Damon's relationship with Bonnie. Ultimately it was those last two that got her booted from the series.

**Is The Vampire Diaries book spicy?** Obviously there are implications of sex (guy & girl in a bed together) and some mentions of "hooking up" but no graphic or explicit content.

**How many Vampire Diaries books did L. J. Smith write?** The first seven books in the series were written by L.J. Smith. These included The Awakening (1991), The Struggle (1991), The Fury (1991), Dark Reunion (1992), The Return: Nightfall (2009), The Return: Shadow Souls (2010), and The Return: Midnight (2011).

**Is Vampire Diaries worth reading?** I would recommend this book to those who like vampire romantic stories. I would recommend this book to those who are 12-16 years old. I gave this novel 3 stars because the author didn't keep the drama going throughout the story. The last book of this series is pretty much where everything goes wrong.

**Why did Vampire Diaries end so abruptly?** According to Plec, it was a combination of narrative reasons and more practical ones, like logistics and contracts that were set to end, that made it the right call to bring the show to an end on their own terms.

**Does Elena divorce Damon?** Elena said her goodbye to a dying Stefan, before living a long and happy life with Damon, whom she married. Though a few years later, Elena and Damon divorced; with Elena getting custody of their five children. Elena is a member of the Petrova Family, and a member of the Gilbert Family.

**How is Elena in the books?** But the Elena of the book series is a bit different than portrayed on the screen. She's introduced as blond, very beautiful, popular at school, and somewhat vain about her appearance and her status in the community. She can have a bit of a mean streak at times, and she knows that she can get almost anything she wants.

**What did Stefan look like in the books?** In the books, Stefan is very handsome. He's slim, tall (but not towering), and muscled, with classic high cheekbones, curly black hair, and deep green eyes. As a vampire, he's naturally quite pale. Oh, and he's eternally 18, despite being born in Italy in the year 1490.

**What does Elena Gilbert look like in the books?** In the first book *The Awakening*, Elena is a high school Senior who is popular, beautiful, admired by all the girls and the object of affection of many boys in the town of Fells Church, Virginia. Elena is cool, blond and slender; the girl every boy wants and the girl every other girl wants to be.

**Who is Stefan married to in real life?**

**What happens to Damon in the books?** Damon stabbed Stefan with his sword and killed him, ultimately sealing his fate and triggering his transformation into an immortal. However, Stefan also stabbed and killed Damon with the very little bit of strength that he had left, also triggering Damon's transformation into an immortal.

**How old was Stephen when filming *Vampire Diaries*?** Paul Wesley was 27 when he played Stefan Salvatore, a vampire who was roughly around 18 when he was changed into a vampire in 1864. Wesley played Stefan for all eight seasons and was 35 years old when the show wrapped.

**Is *Vampire Diaries* appropriate for 18 year olds?** I would say older teens to adults. It has adult themes in it. I recently started watching vampire Diaries and was in love with it but now I stopped by 4 season. I just couldn't bare Elena falling for Damon,

Elena being freakish and also Silas.

**How did Vampire Diaries end?** After having lived their long, happy human lives together, Damon and Elena die and find peace in the afterlife. Elena reunites with her parents, John, and Jenna in the afterlife at the Gilbert family home. Damon reunites with Stefan tearfully at the Salvatore mansion, concluding the series.

**What age are The Vampire Diaries books appropriate for?**

**Why was Vampire Diaries season 8 so bad?** The sirens and Cade were very pointless and non-threatening villains. Bonnie was criminally used this season and everything about her was at least disappointing. I was bored watching Bonnie and Enzo's romance. Damon was for the most part completely "lost" and in some episodes his presence wasn't even needed.

**Why did they change Elena in Vampire Diaries?** Miss Nina Dobrev had a 6 season contract with The Vampire Diaries, post which the contract had to be renewed for Season 7. As Miss Dobrev personally believed that she had explored the character of Elena (alongside Katherine, Amara, Tatia) in all possible ways, she chose to move on.

**Do Damon and Elena have kids?** Stefanie is the witch daughter of Damon Salvatore and Elena Gilbert; the younger sister of Jenna, Grayson, and Zachary Salvatore; the older sister of Sarah Salvatore, and the older half-sister of Macaria, Johnathan, and Alatheia Mikaelson. Due to his marriage to Elena, Elijah Mikaelson is her step-father.

**Do Elena and Elijah have a baby?** Elijah Mikaelson: Elijah is the current husband of Elena Gilbert and the father of their son, Johnathan Mikaelson and an unnamed daughter. He is also the step-father of Jenna, Grayson, Zachary, Stefanie, and Sarah Salvatore. Elian Konstantinov: Elian is the former lover of Katherine and the biological father of Nadia.

**Does Damon cheat on Elena?** Yes, Damon kissed Krystal when Elena was dead.

**Who does Bonnie end up with?** Bonnie instead ends up in a romantic relationship with Enzo toward the end of the show. The two never got to live their lives together since Enzo died. On the other hand, Bonnie got to live her life and eventually grow

old. Fans who loved the couple have wondered if they will see each other again in the afterlife.

**Why did they get rid of the crow in Vampire Diaries?** Damon's power to control the crow and the fog are no longer used in the show because it was considered too supernatural. Crow actor names are: Lee (in Pilot) and Elijah (2, 3, 4 and 5th episode). The crow re-appears in 1912 in a flashback sequence.

**Why did Mina leave Vampire Diaries?** Nina Dobrev's departure from The Vampire Diaries in its sixth season was unexpected, but she wanted to move on from playing a teenager. Dobrev played multiple characters throughout the series, including Elena, a dopplegänger, and other crucial roles in the show's mythology.

**Why is Meredith not in The Vampire Diaries show?** The actress got candid about walking away from her role as Dr. Meredith Fell on The Vampire Diaries following her split from costar Paul Wesley, who played Stefan Salvatore. "I only did, like, six episodes," Torrey explained during a July 15 appearance on Rachel Bilson's Broad Ideas podcast.

**Why does John leave Vampire Diaries?** Stefan stayed behind and became hostile with John, forcefully feeding him blood and threatening to turn him into the creature he despised. Stefan warned John to get out of town in 24 hours, or he would kill him and be turned into a vampire. John did as he asked and packed to leave.
