Understanding Music: 7th Edition Exam

Question 1: What is the purpose of a tonic chord?

Answer: To provide a sense of stability and resolution in a musical progression.

Question 2: What is the difference between major and minor scales?

Answer: Major scales have a wider interval between the 3rd and 4th notes, while minor scales have a narrower interval, giving them a more somber sound.

Question 3: What is a polychord?

Answer: A polychord is a combination of two or more chords played simultaneously, creating a dissonant or complex sound.

Question 4: What is the role of rhythm in music?

Answer: Rhythm refers to the patterns of sound and silence in music, adding structure, flow, and energy to a piece.

Question 5: What is atonality?

Answer: Atonality is a style of music that lacks a traditional tonal center, creating a sense of ambiguity and disorientation.
