Taxation of Individuals and Business Entities

1. What is the difference between a progressive tax and a regressive tax?

A progressive tax is a tax system in which the tax rate increases as the taxable income increases. This means that individuals or businesses with higher incomes

pay a higher percentage of their income in taxes. A regressive tax, on the other hand, is a tax system in which the tax rate decreases as the taxable income increases. This means that individuals or businesses with higher incomes pay a lower percentage of their income in taxes.

2. What are the main types of taxes that individuals pay?

The main types of taxes that individuals pay include income tax, sales tax, property tax, and excise tax. Income tax is a tax on an individual's taxable income, which is their total income minus certain deductions and exemptions. Sales tax is a tax on the sale of certain goods and services. Property tax is a tax on the ownership of real estate or other property. Excise tax is a tax on the production, sale, or consumption of certain goods or services.

3. What are the main types of taxes that businesses pay?

The main types of taxes that businesses pay include income tax, corporate tax, payroll tax, and sales tax. Income tax is a tax on a business's taxable income, which is its total income minus certain deductions and exemptions. Corporate tax is a tax on the net income of corporations. Payroll tax is a tax on wages and salaries paid to employees. Sales tax is a tax on the sale of certain goods and services.

4. What are the advantages and disadvantages of a flat tax system?

A flat tax system is a tax system in which all individuals and businesses pay the same tax rate, regardless of their income or profits. The advantages of a flat tax system include simplicity and fairness. It is easy to understand and administer, and it ensures that everyone pays the same percentage of their income in taxes. However, a flat tax system can be regressive, meaning that it can impose a heavier tax burden on low-income individuals and businesses.

5. What are the factors that affect the tax liability of an individual or business?

The tax liability of an individual or business is affected by a number of factors, including their income, deductions, exemptions, and tax rates.
