Its features make it capable of every job that a police officer can demand of it. Take a look at its incredible features, and you'll see that it is an ideal addition to any department's fleet of vehicles.

What year to stay away from Dodge Durango? The 1999 Dodge Durango is the worst year for a midsize SUV. Then come the 2004, 2000, 2005, and 2011 model years. These model years have relatively more complaints than other model years. As for reliability, you should avoid the worst years.

How many miles is bad for a Dodge Durango? Based on numerous user feedback and our own research, a well-maintained Durango can put numbers as high as 200,000 to 250,000 miles on the odometer. The typical driver with average driving conditions should have no trouble reaching the 125k-150k thresholds.

Are durangos high maintenance? Dodge Durango Maintenance Costs. A Dodge Durango will cost about \$10,766 for maintenance and repairs during its first 10 years of service. This is more than the industry average for popular SUV models by \$7,529. There is also a 30.99% chance that a Durango will require a major repair during that time.

What is the average life span of a Dodge Durango? The Dodge Durango usually lasts from 200,000 to 250,000 miles when properly maintained. Data from the Department of Transportation reveals that, on average, car owners in the U.S. drive 13,476 miles per year. That suggests your Durango could last 14 to 18 years, depending on your driving style and range.

How often does a Dodge Durango need an oil change? Specifies that you need to change your oil at most at 10,000 miles or once per year. With every oil change you will also get a tire rotation as well as an inspection of the following components: CV/universal joints. Brake system.

Do Dodge durangos hold their value? The Durango's combination of space, power, and Dodge's reputation for ruggedness makes it a sought-after choice among used SUV buyers. The Durango's ability to hold its value well makes it an attractive option for families who want a reliable and spacious vehicle that will maintain its worth over time.

Are Dodge Durangos worth buying? Most buyers will be satisfied with the V6 engine. The standard Uconnect 4 infotainment system has intuitive operation, while the optional Uconnect 5 system is more complex. Cargo room is generous, and the Durango can tow 1,000 to 2,000 pounds more than competitors. Limited visibility is a downside.

What year did they stop making Dodge Durango? Partly due to slow sales, but mostly because the Chrysler-Dodge-Jeep network of dealers merged, it was discontinued after the 2009 model year. However, the Dodge Durango Citadel covers the mid-size luxury SUV segment as of 2011.

What is considered high mileage for a Dodge? Anything under 100,000 miles is typically pretty good for any used car. Now that you know what is considered high mileage for a used car, you know what to look for on your used car buying journey, whether you're looking for a used Jeep Cherokee, or any other used Dodge, Chrysler, or RAM vehicle.

How many miles can a Dodge Durango go on a full tank? In addition to having a large tank, the Durango features a class-leading driving range: 600 miles per full

tank.

Are durangos bad on gas? The 2024 Dodge Durango gas mileage ratings are determined by the engine and drivetrain you select along with, of course, your driving style. The standard 3.6L V6 engine as a rear-wheel drive gets the best gas mileage of the lineup and can reach the mentioned 19 mpg in the city and 26 mpg on the highway.

Do Dodge Durangos have transmission problems? The Dodge Durango is a powerful SUV that can handle a lot of wear and tear. However, like any other vehicle, it has some common issues that need to be addressed. One of the most notable concerns is with the transmission.

What are the common problems with a 4.7 Dodge engine? Engine failure and oil sludge are prominent issues in the Dodge 4.7 engine. Sludge may gather in the system, and it will eventually lead to the downfall of your engine. It will affect the power output and force your engine to work much harder than it needs just to perform simple tasks.

How long can a Dodge Durango engine last? The Dodge Durango usually lasts from 200,000 to 250,000 miles when properly maintained. Data from the Department of Transportation reveals that, on average, car owners in the U.S. drive 13,476 miles per year. That suggests your Durango could last 14 to 18 years, depending on your driving style and range.

Is the Dodge Durango a good reliable car? The Dodge Durango Reliability Rating is 3.5 out of 5.0, which ranks it 3rd out of 14 for fullsize SUVs. The average annual repair cost is \$675 which means it has average ownership costs. The severity of repairs is average and the frequency of those issues is low, so major repairs are uncommon for the Durango.

How to love someone with PTSD?

Which disorder has a strong relationship with PTSD? Many of the other symptoms of PTSD, such as hyperarousal, avoidance, and numbing, overlap with other mental disorders, such as generalized anxiety disorder, panic disorder, and depression.

How does PTSD affect intimacy? Survivors often struggle with intense anger and impulses. In order to suppress angry feelings and actions, they may avoid closeness. They may push away or find fault with loved ones and friends. Also, drinking and drug problems, which can be an attempt to cope with PTSD, can destroy intimacy and friendships.

Can PTSD make you fall out of love? PTSD breaks connections. The trusting, intimate, loving kindness you used to have can fray until you fear you both can't hang on any longer. And, on top of the disconnection, irritability, and other causes of relationship troubles due to PTSD, the survivor may be wracked with guilt and shame.

What not to say to someone with PTSD?

What do people with PTSD want you to know?

What is the most extreme form of PTSD? Complex post-traumatic stress disorder (complex PTSD, sometimes abbreviated to c-PTSD or CPTSD) is a condition where you experience some symptoms of PTSD along with some additional symptoms, such as: difficulty controlling your emotions. feeling very angry or distrustful towards the world.

What mental illness is associated with PTSD? People with PTSD often have co-occurring conditions, such as depression, substance use, or one or more anxiety disorders. After a dangerous event, it is natural to have some symptoms.

What is the most severe form of trauma? Complex trauma is the most sweeping and wide-reaching form of trauma. Unlike chronic trauma and acute trauma, complex trauma is a term that describes both the traumatic events themselves and a person's responses to that trauma. Complex trauma often overlaps with other co-occurring disorders and stressors.

What happens when you yell at someone with PTSD? The aggressive and forceful nature of yelling can mimic the threatening and dangerous situations that caused their PTSD in the first place. This triggers a cascade of emotions and physiological responses, further entrenching their symptoms and impeding their ability to cope.

Why do people with PTSD not like being touched? Past trauma: Touch associated with negative experiences and triggers anxieties. Sensory issues: Touch can feel overwhelming or unpleasant due to neurological differences. Personal boundaries: Strong preference for personal space and autonomy.

Why do people with PTSD push you away? How to be there for a loved one with PTSD when they push you away. An individual with PTSD may push you away because they believe you can't understand what they're feeling. While you may not have that trauma, there are still ways to be there for them without invalidating their experiences and emotions.

How do people with PTSD treat their partners? Some people with PTSD tend to avoid social interaction, even with their partners, when they're experiencing intense symptoms. This is often done in an attempt to spare others from having to deal with their symptoms. Avoidance goes beyond this, though.

Can PTSD cause someone to cheat? While PTSD doesn't directly cause infidelity, many couples dealing with PTSD may also end up dealing with infidelity as well.

Do people with PTSD deserve love? Ultimately, trauma survivors are just as worthy of love as anyone else and can become especially strong, supportive, perceptive, and giving partners!

Can someone with PTSD have a healthy relationship? In many cases, they may feel unable to trust anyone, and they often feel misunderstood by everyone in their life. This can make sustaining a healthy relationship difficult (though not at all impossible). Your partner may experience bouts of intense sadness, guilt, anger, or shame related to a past traumatic event.

How does PTSD affect people you love? Impact of PTSD on relationships and day-to-day life. They may stop themselves from participating in family life or ignore offers of

help. This can lead to loved ones feeling shut out. It is important to remember that these behaviours are part of the problem.

How to be in a relationship with someone with complex PTSD? Providing emotional support can be instrumental in helping individuals with complex PTSD navigate their triggers and associated challenges. Listening without judgment, expressing empathy and understanding, and offering reassurance can create a sense of safety and trust within the relationship.

Why do people with PTSD isolate themselves? Remember: PTSD is a normal response to abnormal circumstances. It's common for people with PTSD to isolate themselves. You may feel overwhelmed or unsafe in groups, quick to anger, misunderstood, or just uninterested in being around people.

What Will It Take to Make a Woman President?

Marianne Schnall, author of "Conversations About Women Leadership and Power," sat down with women leaders to discuss the challenges and opportunities facing women in politics. Here are some key questions and answers:

Q: What are the biggest barriers to women's leadership?

A: Systemic barriers, such as a lack of female representation in high-level positions, unconscious bias, and cultural norms that reinforce gender stereotypes, pose significant challenges to women's advancement.

Q: What skills and qualities are essential for female leaders?

A: Empathy, strong communication abilities, a collaborative approach, and a willingness to challenge the status quo are crucial characteristics for women who want to lead effectively.

Q: What can women do to break through the barriers?

A: Women can support each other through networking, mentoring, and advocacy. They can also advocate for policies that promote gender equality and challenge biases. Additionally, they can actively seek out leadership opportunities and be willing to take risks.

Q: What role do men have to play in supporting women's leadership?

A: Men can be allies by challenging sexism and bias, providing mentorship and sponsorship to women, and advocating for policies that support gender equality. They can also actively promote a culture of respect and inclusivity in the workplace.

Q: When will we see a woman president?

A: The path to a woman president is complex and involves many factors. While progress has been made, there is still much work to be done to break down barriers and create a level playing field for women in politics. Marianne Schnall believes that by addressing systemic barriers, supporting women's leadership, and fostering a culture of inclusion, we can create the conditions necessary to make a woman president a reality.
