

Answers to guided modernization in japan

Download Complete File

What was the modernization of Japan? After the Meiji Restoration (1868), Japan began to modernize and to industrialize on the European and American pattern. Western cultural traits were introduced on a large scale through the schools and the mass communication media.

How would Japan get the materials it needed? As a result, Japan imports most of its food from other countries. Japan lacks many raw materials needed for industry and energy, such as oil, coal, iron ore, copper, aluminum and wood. Japan must import most of these goods.

What was the American motive in sending the fleet Quizlet? The American motive in sending the fleets was to ask Japan to allow free trade between them and the United States. They used these large fleets as a way to frighten the Japanese. - Treaty that Japan signed in response to Mathew Perry's threats to come back with bigger fleets if the Japanese do not open ports.

How did the feudal system work in Japan in the early 17th century? From the 17th century, then, the Japanese feudal system was, instead of being a nation-wide pyramid structure of land distribution, largely one of local samurai warriors offering their services to a large estate owner or warlord in exchange for use of land, rice, or cash.

What are three reasons why Japan was able to modernize rapidly?

How did modernization affect Japan as a nation? Modernization clashed with Japanese traditions, causing social and political unrest. There was a short-term financial boom, but soon the nation ran out of resources. Modernization of Japans industry helped the country become politically and financially stronger.

Why is Japan so wealthy? The extensive use of technological innovations and the implementation of superior production systems gave many sectors of Japanese manufacturing a formidable advantage over their rivals, and as a result the country's exports soared.

What is Japan's strongest industry? The automobile manufacturing industry, which is the second largest in the world, dominates the industrial sector, with Toyota being the world's largest manufacturer of cars. Japan is often ranked among the world's most innovative countries, leading several measures of global patent filings.

What are 3 resources in Japan? Coal, iron ore, zinc, lead, copper, sulfur, gold, and silver are among the most abundant minerals (in relative terms), with lesser quantities of tungsten, chromite, and manganese. Japan also has large deposits of limestone.

How did the Treaty of Kanagawa benefit Japan? According to the terms of the treaty, Japan would protect stranded seamen and open two ports for refueling and provisioning American ships: Shimoda and Hakodate. Japan also gave the United States the right to appoint consuls to live in these port cities, a privilege not previously granted to foreign nations.

How did Japan expand its empire to Korea? In 1910, Korea was annexed by the Empire of Japan after years of war, intimidation and political machinations; the country would be considered a part of Japan until 1945. In order to establish control over its new protectorate, the Empire of Japan waged an all-out war on Korean culture.

Why were China and Japan both interested in Korea? The war grew out of conflict between the two countries for supremacy in Korea. Korea had long been China's most important client state, but its strategic location opposite the Japanese islands and its natural resources of coal and iron attracted Japan's interest.

What does edo mean in Japanese? Edo (Japanese: 江戸, lit. "bay-entrance" or "estuary"), also romanized as Jedo, Yedo or Yeddo, is the former name of Tokyo.

Why did feudalism end in Japan? Answer and Explanation: Japanese feudalism came to an abrupt end in the latter half of the 19th century with Japan opening up

relations with foreigners and the adoption of modern industrial techniques.

What are the disadvantages of Japanese feudalism? The disadvantages of feudalism were that the samurai must devote their lives to their daimyo, were forced to live under many strict codes, could not change their social role, had to protect their daimyo, even if it meant they would die, and did not get much say in which daimyo they protect.

Why did Japan modernize but not China? Both China and Japan came under increasing threat from the Western powers after 1850. In response, Japan successfully undertook a program of state building and modernization; in China, however, attempts to modernize proved unsuccessful and the power of the central state was fatally weakened.

What were Japan paths to Modernisation?

What are the three ways in which Japan modernized? Three ways in which Japan modernized included: the ending of legal distinctions between classes, the writing of a constitution, and the creation of new schools and education systems.

What was the main goal of Japanese modernization brainly? The main goal of Japanese modernization was to catch up with Western powers in terms of industrialization, technology, and military strength. This was driven by the desire to avoid colonization and maintain sovereignty.
