GM Service Manuals: A Comprehensive Guide**

Who makes GM service manuals?

GM service manuals are typically produced by GM's own technical writing and documentation team.

Service Manual vs Repair Manual

A service manual is similar to a repair manual but is often more detailed and specific to a particular vehicle model and year. It includes instructions for maintenance, repairs, and troubleshooting.

2008 GMC Sierra 1500 Engine Code

The engine code for a 2008 GMC Sierra 1500 can vary depending on the engine type and trim level. Consult your specific vehicle's engine code label or owner's manual for the exact code.

GMC Sierra Transmission Service

GM recommends servicing the transmission on a GMC Sierra every 30,000 to 50,000 miles, depending on driving conditions.

GMC Sierra Engine Longevity

With proper maintenance, a GMC Sierra engine can typically last around 200,000 to 300,000 miles.

GM Parts Made in Japan

While some GM vehicles may contain components manufactured in Japan, most GM parts are made in various countries around the world, including the United States.

2008 GMC Sierra Gas Type

The 2008 GMC Sierra requires regular unleaded gasoline with an octane rating of 87 or higher.

Check Engine Light Reset

To reset the check engine light on a 2008 GMC Sierra:

1. Find the OBD-II port under the dashboard.
2. Insert the key into the ignition and turn it to the "On" position (do not start the engine).
3. Insert a jumper wire or paperclip into pin 5 (ground) and pin 16 (diagnostic connector).
4. Watch the check engine light flash several times.
5. Remove the jumper wire and turn the key off.

2008 GMC Sierra Towing Capacity

The towing capacity of a 2008 GMC Sierra varies depending on the model and configuration. Consult your owner's manual for the specific towing capacity.

GMC Sierra 1500 Oil Change Frequency

GM recommends changing the oil and filter on a GMC Sierra 1500 every 5,000 to 7,500 miles when using conventional oil. For synthetic oil, change intervals can be extended to 10,000 to 12,000 miles.

GM Transmission Fluid Change Frequency

GM recommends changing transmission fluid on most models every 50,000 to 100,000 miles. However, consult your specific vehicle's manual for the recommended interval.

GM Transmission Longevity

GM transmissions typically last between 100,000 and 200,000 miles, depending on driving conditions, maintenance, and type of transmission.

Best GMC Sierra Years to Avoid

According to various reviews and surveys, the following GMC Sierra years should be avoided if possible:

- 2007
- 2008
- 2010

Best Engine in GMC Sierra

The best engine available in a GMC Sierra varies depending on the year and model. Some of the most highly-rated engines include:

- 5.3L V8
- 6.2L V8
- 6.6L Duramax V8

2008 GMC Sierra Longevity

With proper maintenance and driving habits, a 2008 GMC Sierra can typically last for around 15 to 20 years.

GM Transmission Manufacturers

GM transmissions are manufactured by various companies, including:

- Allison
- BorgWarner
- ZF Friedrichshafen

Car Repair Manual Publishers

Car repair manuals are typically published by independent companies, such as:

- Chilton
- Haynes
- Mitchell 1

OEM Parts for GM

Original equipment manufacturer (OEM) parts for GM are produced by various companies under contract with GM, including:

- ACDelco
- Delphi
- Bosch
