So modern English translations like the NIV removed it from the main body of the text and made it a footnote. So that's why when you're reading Matthew 18, you jump from verse 10 to verse 12.

What is the controversy with the NIV? One of the biggest criticisms of the 1984 NIV was that sometimes words in the Greek text simply were not translated. The most notorious example was the Gospel of Mark, which makes frequent use of the Greek word euthus, "immediately." For some reason, there were many verses in the 1984 NIV that simply ignored this word.

Why is Matthew 23/14 missing? Scholars report that the earliest and best manuscripts of Matthew do not include verse 14. For this reason, it's skipped or included in brackets in many modern translations, including the ESV and the NIV.

Which Bible is the true translation?
