## [Download Complete File](#)

**Does Lennie have autism in mice of men?** Of Mice and Men is a story about an intellectually disabled man. Lennie's disability is central to the plot; if he were not intellectually disabled, the story would simply not work. It has also been suggested (Loftis, 2015, 2016) that Lennie exhibits characteristics of autism.

**Why was Of Mice and Men banned?** Of Mice and Men by John Steinbeck is regularly on the banned books list put out by the American Library Association. It has been banned because of vulgarity, racism, and its treatment of women. The challenges don't seem to go away as time goes on; even in the twenty-first century, the book is still being challenged.

**What is the famous line in Of Mice and Men?** "Nobody never gets to heaven, and nobody gets no land. It's just in their head."

**What is the main point Of Mice and Men?** The story follows two migrant workers, George and Lennie, who begin working at a new ranch during the Great Depression and dream of owning a farm of their own. The main idea of Steinbeck's work is a statement of humanity as he investigates the meaning of humanity during the times of the Great Depression.

**What is Lennie's mental disability?** The Lenny described in the story did not have any mental illness. He had an intellectual disability, what used to be called 'mental retardation.' Steinbeck was a meticulous observer of human behavior and he described Lenny almost perfectly.

**Were George and Lennie black?** Answer and Explanation: Crooks lives in the stable because black workers are not allowed to bunk with the white workers. Both Lennie and George are white men, as evidenced by the fact that they are allowed to

live in the main bunk house.

**Why should we not read *Of Mice and Men*?** Challenges have included complaints about “profanity,” “morbid and depressing themes,” and the author's alleged “anti-business attitude.” Others have called it “derogatory towards African Americans, women, and the developmentally disabled.”

**Why is *The Color Purple* banned?** As The Banned Books Project points out, there have been “different reasons for the book being banned, including religious objections, homosexuality, violence, African history, rape, incest, drug abuse, explicit language, and sexual scenes.” The bans and challenges to *The Color Purple*, as we know, have nothing to do ...

**Why is *Huckleberry Finn* banned?** *Huckleberry Finn* banned immediately after publication. Immediately after publication, the book was banned on the recommendation of public commissioners in Concord, Massachusetts, who described it as racist, coarse, trashy, inelegant, irreligious, obsolete, inaccurate, and mindless.

**What is the saddest quote in *Of Mice and Men*?** As the great Kurt Vonnegut wrote in *Cat's Cradle*, “Of all the words of mice and men, the saddest are, 'It might have been.' ” I can't go back and change what I did or didn't do in the past, no matter how hard I try.

**What does George say before he kills Lennie?** I never been mad, an' I ain't now. That's a thing I want ya to know." - This is the last thing that George ever says to Lennie before he kills him.

**Why is Lennie so obsessed with rabbits?** Lennie is also associated with rabbits, which are part of his dream (he will get to tend them on the farm) and because they are soft things he likes to pet.

**Why did George shoot Lennie?** Answer and Explanation: The reason George shoots Lennie at the end of *Of Mice and Men* is because Lennie killed Curley's wife. If George did not shoot Lennie, the large man would either be shot in the stomach by Curley, a slow and painful death, or locked up in an institution.

**What does Lennie's death symbolize?** Lennie's death conclusively demonstrates one of the novella's central ideas: according to the rules of the American economy, the weak and vulnerable cannot survive.

**What is the irony Of Mice and Men?** The most tragic irony, however, is in how close George and Lennie come to achieving their dream. They nearly have the money they need for a down payment on a home when it's all snatched away in a tragic accident, suggesting that for men like George and Lennie, the American Dream is unattainable.

**Who is the autistic guy in Of Mice and Men?** Lennie Small is a tall and burly, kind, loyal and caring, but intellectually disabled man who is George's primary companion and is taken care of by George because of his mental disabilities. He is kind, doesn't like to cause problems, and he loves to pet soft things such as the puppies or the dead mouse.

**Why does Lennie have autism?** Lennie loves to touch all things soft like mice, dogs, rabbits and other things. This is often an autistic like characteristic. Many autistic people can be sensitive to certain things that they touch, but they can also adore the feeling of other things.

**Is Of Mice and Men a true story?** The main characters, George Milton and Lennie Small, do not get the ending the reader anticipates. Set in California during the Great Depression, this novella paints very real circumstances for realism, but these characters are not real people and the events in the story are not true, making it a fictional piece.

**Are George and Lennie really cousins?** Although George claims to one character that Lennie is his cousin whom he promised to take care of, we learn that they are not actually related.

**Why does George look after Lennie?** Vassy I think he does it mostly for loneliness. Lennie is a friend that adores him and would never betray him, and this is a treasure not many people have, especially among vagrants.

**Why are George and Lennie so different?** Lennie, a strong bold man and a hard worker, is handicapped with a mental disability while George, on the other hand, is a

slim, but strong man who has taken care of Lennie ever since his Aunt Clara had perished.

**Who is the autistic guy in Of Mice and Men?** Lennie Small is a tall and burly, kind, loyal and caring, but intellectually disabled man who is George's primary companion and is taken care of by George because of his mental disabilities. He is kind, doesn't like to cause problems, and he loves to pet soft things such as the puppies or the dead mouse.

**What characters in Of Mice and Men have disabilities?** In John Steinbeck's novel, *Of Mice and Men*, Steinbeck portrayed a political statement by looking at mental and physical disabilities through different characters such as Curley's Wife, Crooks, and Lennie. Curley's wife is used to represent how women were treated during the 1930's and almost treated with a disability.

**What is the syndrome in Of Mice and Men?** Carlile doesn't take feeling great for granted. And it doesn't happen too often. The singer suffers from a rare genetic condition known as Marfan syndrome that affects his connective tissue and causes weakness in his heart, lungs, ears, joints and muscles.

**What is Lennie's problem?** Lennie is perceived as mentally handicapped and relies heavily on George as a result. He looks towards George for everything; from the way he thinks, to the actions he makes, he obeys George's orders and has no self awareness or ability to make his own decisions.
