**What are infinitives and infinitive phrases?** An infinitive is a verbal consisting of the word to plus a verb; it may be used as a noun, adjective, or adverb. An infinitive phrase consists of an infinitive plus modifier(s), object(s), complement(s), and/or actor(s).

**What is the difference between an infinitive and a prepositional phrase?** Both infinitives and prepositional phrases can begin with “to.” However, an infinitive is “to” plus a verb, while “to” in a prepositional phrase is followed by a noun or pronoun. For example, in “I want to take her to the cinema,” “to take” is an infinitive and “to the cinema” is a prepositional phrase.

**What is the function of the infinitive?** An infinitive is a verbal, a verb form or construction that plays the role of a different part of speech in a sentence. Although infinitives contain verbs, they cannot function as verbs. They do not convey a sense of tense on their own, and sentences containing them must include at least one finite main verb.

**How to identify infinitive?** An infinitive is a basic form of a verb that acts as a noun, adjective, or adverb and is usually preceded by the word to. Infinitives express actions in sentences. **What is a infinitive easy definition?** In English, an infinitive is a verb form that is the same as the base or dictionary form. It's often preceded by "to" (e.g., "to study," "to run").
