"Understanding Canadian Public Administration: An Introduction to Theory and Practice, 2nd Edition" is a comprehensive guide to the Canadian public administration system. This book provides students with a foundational understanding of the principles, theories, and practices that shape public administration in Canada.

Key Concepts

1. What are the core principles of Canadian public administration?

- **Neutrality:** Public administrators strive to provide objective and impartial advice to elected officials.
- **Accountability:** Public administrators are responsible for the decisions they make and the outcomes of their work.
- **Transparency:** Public administrators are open and transparent about their operations and decision-making processes.

- **Equity:** Public administrators work to ensure that public services are distributed fairly and equitably.

2. What are the main theories that underpin public administration?

- **Bureaucratic Theory:** Public administration is based on a hierarchical structure with clear lines of authority and responsibility.
- **New Public Management:** Public administration should be managed like a private business, emphasizing efficiency, effectiveness, and customer satisfaction.
- **Governance Theory:** Public administration should focus on collaboration, partnerships, and stakeholder involvement.
- **Public Service Theory:** Public administrators are motivated by a desire to serve the public interest.

3. What are the key practices of public administration in Canada?

- **Policy Analysis:** Public administrators analyze problems and propose solutions to address them.
- **Program Evaluation:** Public administrators evaluate the effectiveness of public programs and services.
- **Financial Management:** Public administrators manage public funds and ensure that resources are used efficiently.
- **Human Resources Management:** Public administrators recruit, train, and manage the public workforce.

4. What are the challenges facing public administration in Canada?

- **Fiscal Constraints:** Public administrators must balance the need for public services with limited financial resources.
- **Globalization:** Public administration must adapt to changes in the global economy and society.
- **Technological Advancements:** Public administrators must keep up with the latest technologies to improve service delivery.

- **Citizen Engagement:** Public administrators must engage with citizens and involve them in decision-making processes.
