The Honda CR250: A Legacy of Motocross Prowess**

Why is the 2001 CR250 so good?

The 2001 CR250 is widely regarded as one of the best motocross bikes ever produced. It boasted an unparalleled combination of power, handling, and reliability that made it a formidable weapon on the track.

Is a Honda CR250 a 2 stroke?

Yes, the Honda CR250 is a 2-stroke motorcycle. It utilizes a 2-stroke engine, which is characterized by its lightweight, simplicity, and explosive power delivery.

What year was the best CR250 made?

The 2001 CR250 is often considered the pinnacle of the CR250 series. It featured several major upgrades, including a revised engine, suspension, and chassis, which significantly enhanced its performance and handling.

What replaced the CR250?

The Honda CRF250R replaced the CR250 in 2002. The CRF250R adopted a 4-stroke engine, marking a significant departure from the 2-stroke heritage of the CR250.

When did Honda stop making the CR250R?

Honda discontinued production of the CR250R in 2007, ending a successful run that had spanned over two decades.

What is the difference between CR250 and CR250R?

The CR250 and CR250R are essentially the same bike, with the "R" designation indicating an off-road racing version. The CR250R is tailored specifically for motocross competition, with features such as a narrower transmission, softer suspension settings, and an ignition curve optimized for racing.

How fast can a 250cc 2-stroke dirt bike go?

A 250cc 2-stroke dirt bike can reach speeds of up to 70 mph or more, depending on the terrain and rider skill.

What year is Ronnie Mac cr250?

Ronnie Mac's CR250 is the 1989 model, which featured a legendary red, white, and blue color scheme and was widely considered one of the best CR250s ever produced.

What was the first water cooled cr250?

The first water-cooled CR250 was the 1988 model. Prior to that, CR250s were air-cooled.

What was the last 2 stroke Honda made?

The last 2-stroke Honda produced was the CR500, which was discontinued in 2001.

How much HP does a 2002 cr250 have?

A 2002 CR250 is estimated to produce around 47 horsepower, making it one of the most powerful motocross bikes of its era.
