How to answer true false cannot say questions? In the case of a true, false, cannot say test, this thinking can lead to incorrect assumptions and extrapolating from the text to prove your own theory. To answer these questions correctly, you must be sure to take a logical approach to identify facts and important information before forming a conclusion.

How to always get true or false questions right? a) Read the question before you look at the answer. b) Come up with the answer in your head before looking at the possible answers, this way the choices given on the test won't throw you off or trick you. c) Eliminate answers you know aren't right.

How do you answer true or false questions in reading?

What are true and false answers? True and False Questions consist of a question and two answer options. More often than not, the answer options used are 'True and False'. You can however use other options, such as 'Yes' and 'No', 'I Agree' and 'I Disagree'. Also known as: TF, binary choice questions, objective.

What makes a good true-false question? Include only one main idea in each item. As in multiple choice questions generally, use negatives sparingly. Use statements which are unequivocally true or false. Avoid lifting statements directly from assigned reading, lecture notes or other course materials so that recall alone will not permit a correct answer.

How to write good true-false questions? Generally, avoid the use of words which would signal the correct response to the test-wise student. Absolutes such as none, never, always, all, impossible tend to be false, while qualifiers such as usually, generally, sometimes, and often are likely to be true.

How to get the right answer in true or false?

What is the weakness of a true-false test? These include: (i) there is a high chance of guessing the correct answer; (ii) some marks are not awarded for knowing the correct answer, but for knowing that an answer is incorrect; (iii) they are weak in discriminating between high and low performers; (iv) identifying items which are absolutely true or false may lead ...
