What are some questions about farming?

What are some questions about agriculture for kids? Some example questions are: “What do you wonder about farm animals?” “What do you notice about your breakfast/lunch/snack?” “What kinds of foods do you like to eat, do you ever wonder about where they came from?” “Can you imagine how your favorite food grows? What makes you curious?”

What is the biggest problem in farming? Farmers must adapt to climate change. Increasingly volatile weather and more extreme events – like floods and droughts – change growing seasons, limit the availability of water, allow weeds, pests and fungi to thrive, and can reduce crop productivity.

What are the 3 things to consider when farming?

What are 5 interesting facts about agriculture?

What are the big four in agriculture? Archer Daniels, Bunge, Cargills, and Louis Dreyfuss control 90% of the global grain trade, plus considerable parts of the food processing chain. Collectively known as the ABCD companies, they may not be as recognizable as the big four oil or tech names but approach them in their economic clout.

What are 3 good things about agriculture? Agriculture impacts society in many ways, including: supporting livelihoods through food, habitat, and jobs; providing raw materials for food and other products; and building strong economies through trade.

What is the #1 issue facing agriculture today? The main challenges that agriculture faces today are climate change, increased input costs, growing

population, volatility, and lack of agricultural equipment.

What are the biggest threats to agriculture?

Why are farmers struggling? The agriculture business has become increasingly unstable. Financial uncertainty, physical isolation and increasingly unpredictable crop yields linked to climate change are just some of the stressors that are fueling a mental health crisis among farmers.

What do farmers need the most? Farmers need fertile soil, seeds and planting equipment to grow a crop.

Which farming is most profitable?

How do farmers choose what to grow? There are several key factors in our decision-making process when it comes to adding crops to our rotation: Markets: Do we have a place to market this crop? Agronomic: Do we farm in an environment suitable for this crop? Economic: Can we be profitable while raising this crop?

What are 5 interesting facts about farming?

What is the interview question for farming?

Why was farming difficult? At the end of the 19th century, about a third of Americans worked in agriculture, compared to only about four percent today. After the Civil War, drought, plagues of grasshoppers, boll weevils, rising costs, falling prices, and high interest rates made it increasingly difficult to make a living as a farmer.

What's hard about farming? Common Farming and Family Stresses ? Common farming stresses include machinery breakdowns, the death of a valuable animal, uncontrollable weather, variable crop yields and fluctuating commodity prices. ? Common family stresses include economic difficulties, turmoil in the world, loss of a family member or divorce.
