**What are the four classifications of idioms?** 4 types of idioms Generally speaking, there are four types of idioms: pure idioms, binomial idioms, partial idioms, and prepositional idioms. Some people may consider clichés, proverbs, and euphemisms to be types of idioms as well, but we'll explain why they are different from idioms.

Verbal idioms have verbal syntagmatic structures, they often consist of a verb and an object (e.g. make up one's mind, open somebody's eyes, sleep like a log).

**What are the elements of an idiom?** An idiom is a phrase comprised of words that has a meaning that cannot be derived from the conjoined meanings of its individual words.
