Q: How can I create a textbox that provides autocomplete suggestions in ASP.NET using jQuery UI?

A: To achieve textbox autocomplete functionality in ASP.NET using jQuery UI, follow these steps:

1. Add a reference to the jQuery UI library in your HTML or ASPX page.
2. Create a textbox control in your ASP.NET application.
3. Implement an event handler for the `keypress` or `keyup` event on the textbox.
4. Within the event handler, use the `autocomplete` method of the jQuery UI library to specify the source of suggestions and configure other options.
5. Optionally, style the autocomplete UI using CSS classes provided by jQuery UI.

Q: What are the advantages of using jQuery UI for textbox autocomplete?

A: jQuery UI's autocomplete plugin provides several advantages:

1. Easy integration with ASP.NET applications.
2. Rich customization options, including source, delay, and styling.
3. Support for multiple suggestion formats (e.g., JSON, AJAX, local arrays).
4. Enhancement of user experience by providing relevant suggestions and reducing typing effort.

Q: How can I set the source of autocomplete suggestions in jQuery UI?

A: To set the source of autocomplete suggestions, use the `source` option in the `autocomplete` method. The source can be:

1. An array of strings.
2. A URL that returns JSON data.
3. A function that generates suggestions based on the input term.

Q: What is the purpose of the `delay` option in textbox autocomplete?

A: The `delay` option specifies how many milliseconds to wait after a user stops typing before triggering the autocomplete suggestion query. This helps prevent excessive calls to the server or other source of suggestions.

Q: How can I further customize the look and feel of the autocomplete UI?

A: To customize the UI, use the CSS classes provided by jQuery UI. For example, the `ui-autocomplete` class applies styles to the suggestion dropdown, while `ui-menu-item` applies styles to individual suggestions. You can modify these styles using your own CSS rules.

What age is appropriate for *Diary of a Wimpy vampire*? This book is suitable for his age (8 years old), but I feel that a slightly older child would relate more to the main character. As an adult, I read this strictly for review purposes. It isn't the type of book that adults would read on their own. But I did like the book.

Are there any inappropriate scenes in *Diary of a Wimpy Kid*? There are several jokes about boogers and farts, a few shots featuring kids on toilets (the middle-school boysroom has no doors on its stalls), and in one scene, the protagonist accidentally pees on his brother.

Is the *vampire Academy* book spicy? While the sex scenes and violence are non explicit, the series starts off with a teenager actively trying to seduce her adult instructor.
