

QUOTES FROM THE CRUCIBLE WITH PAGE NUMBERS

[Download Complete File](#)

What are some important quotes in The Crucible?

What is a quote from The Crucible act 3? I hear the boot of Lucifer, I see his filthy face! And it is my face, and yours, Danforth! For them that quail to bring men out of ignorance, as I have quailed, and as you quail now when you know in all your black hearts that this be fraud—God damns our kind especially, and we will burn, we will burn together!

What is John Proctor's quote? John Proctor: Because it is my name! Because I cannot have another in my life! Because I lie and sign myself to lies! Because I am not worth the dust on the feet of them you have hanged!

What is an important quote in The Crucible Act 2? "No man may longer doubt the powers of the dark are gathered in monstrous attack up on this village. There is too much evidence now to deny it" (Hale, Act 2, p. 61).

What are quotes from The Crucible that show hysteria? "I have seen too many frightful proofs in court—the Devil is alive in Salem, and we dare not quail to follow wherever the accusing finger points!", revealing how the hysteria of the Puritan society permeates Salem's legal system.

What is an ironic quote from The Crucible? One example of verbal irony in The Crucible is when Abigail says, "Oh, Mary, this is a black art to change your shape. No, I cannot, I cannot stop my mouth; it is God's work I do." Abigail claims that she is doing God's work, but in reality she is doing the devil's work by forcing the girls to lie and causing chaos.

What is a quote from The Crucible about revenge? God help me, I lusted, and there is a promise in such sweat. But it is a whore's vengeance.

What happens in Act 2 Scene 3 of The Crucible? Hale asks Proctor to testify in court that Abigail is a fraud. Hale then questions Elizabeth to find out if she believes in witches. Giles Corey and Francis Nurse arrive and tell Proctor, Hale, and Elizabeth that the court has arrested both Martha Corey and Rebecca Nurse for witchcraft.

What happens in Act 4 Scene 3 of The Crucible? Scene 3 reveals a dramatic change in the relationship between Proctor and Elizabeth. They have learned to forgive one another and to communicate their feelings. Elizabeth realizes that she cannot blame Proctor entirely for the affair.

What are the quotes from The Crucible about hanging? If retaliation is your fear, know this—I should hang ten thousand that dared to rise against the law, and an ocean of salt tears could not melt the resolution of all the statues. Now draw yourselves up like men and help me, as you are bound by Heaven to do.

What are some quotes from The Crucible about reputation? Some of the most illuminating quotes in The Crucible on the nature of reputation in society are as follows: "How may I live without my name? I have given you my soul; leave me my name!" In Act IV, John Proctor utters this cry when he is asked to sign his name on a document stating his culpability for witchcraft.

What are the quotes from The Crucible about sacrifice? It is mistaken law that leads you to sacrifice. Life, woman, life is God's most precious gift; no principle, however glorious, may justify the taking of it.

What is an important quote from The Crucible act 1? I will not, I cannot! You loved me, John Proctor, and whatever sin it is, you love me yet! Abigail Williams utters these words in an Act I conversation with John Proctor, clueing the audience in to her past affair with him.

What is a significant quote from The Crucible Act 3? Act 3 of The Crucible contains many important quotes. John admits to adultery and discredits the courtroom with these lines: "You know in all your black hearts that this be fraud...

You are pulling Heaven down!" Mary Warren admits that the accusations and hysteria were an act: "It were only sport in the beginning..."

What is an important quote from The Crucible Abigail? I want the light of God, I want the sweet love of Jesus! I danced for the Devil; I saw him, I wrote in his book; I go back to Jesus; I kiss His hand. I saw Sarah Good with the Devil! I saw Goody Osburn with the Devil!

What is a meaningful quote from The Crucible? A child's spirit is like a child, you can never catch it by running after it; you must stand still, and, for love, it will soon itself come back. We are what we always were in Salem, but now the little crazy children are jangling the keys of the kingdom, and common vengeance writes the law!

What is the quote in The Crucible that shows fear? Let either of you breathe a word, or the edge of a word, about the other things, and I will come to you in the black of some terrible night and I will bring a pointy reckoning that will shudder you." This quote shows that Abigail has a feeling of fear of others telling the truth about what actually occurred.

How do you quote The Crucible?

What is a quote from The Crucible that shows hysteria? "I have seen too many frightful proofs in court--the Devil is alive in Salem, and we dare not quail to follow wherever the accusing finger points!" Reverend Hale continues to seek out witchcraft in Act 2. Normally a reasonable man, he is falling into the hysteria of the town of Salem.

What quotes show corruption in The Crucible? This quote shows the corruption of the court because they are willing to convict innocent people and execute them just to maintain their power. "There is no light without darkness, no truth without lies." This quote is said by Reverend Parris in act four.

What are some hyperbole quotes in The Crucible? Hyperbole in The Crucible Statements such as, "I am starving to death" or "that meeting took forever" are examples of hyperbole. Characters use hyperboles throughout the play to add dramatic emphasis.

What are some important quotes from Thomas Putnam in The Crucible? The following are Thomas Putnam quotes which help to showcase his character traits: "Don't you understand it, sir? There is a murdering witch among us, bound to keep herself in the dark. Let your enemies make of it what they will, you cannot blink it more." Thomas Putnam says this to Mr.

What are some significant quotes in The Crucible quizlet? "Let either of you breathe a word, or the edge of a word, about the other things, and I will come to you in the black of some terrible night and I will bring a pointy reckoning that will shudder you." "The Devil is precise; the marks of his presence are definite as stone." "I see no light of God in that man."

What are some quotes from The Crucible about reputation? Some of the most illuminating quotes in The Crucible on the nature of reputation in society are as follows: "How may I live without my name? I have given you my soul; leave me my name!" In Act IV, John Proctor utters this cry when he is asked to sign his name on a document stating his culpability for witchcraft.

What is the main message of The Crucible? One of the major themes in The Crucible is that of honor and integrity. Through the characters of John Proctor and Rebecca Nurse, Miller shows people who keep their honor even though it costs them their lives.

World TV Day 2023: EGTA Member Q&A

What is World TV Day?

World TV Day is an annual celebration held on November 21 to recognize and celebrate the transformative power of television in our lives. It was first established by the United Nations General Assembly in 1996.

Why is it celebrated on November 21?

November 21 marks the date in 1996 when the first World Television Forum was held in Geneva, Switzerland.

What is the role of EGTA on World TV Day?

The European Group of Television Advertising (EGTA) plays a vital role in promoting and supporting World TV Day. As an industry association representing commercial broadcasters, EGTA advocates for the recognition of television as a valuable platform for information, entertainment, and advertising.

How does EGTA celebrate World TV Day?

EGTA encourages its members to participate in various initiatives to mark World TV Day, including organizing events, sharing case studies, and promoting the importance of television in society.

What is the future of television?

Television continues to evolve with the advent of new technologies and changing consumer preferences. EGTA believes that television will remain a central part of our lives, providing unique and engaging experiences that connect, inform, and entertain audiences around the world.

Stoichiometry: Limiting Reagent Problems Answers

Stoichiometry is the study of the quantitative relationship between reactants and products in chemical reactions. One important aspect of stoichiometry is determining the limiting reactant, which is the reactant that is completely consumed in a reaction, limiting the amount of product that can be formed. Here are some questions and answers on stoichiometry limiting reagent problems:

Question: A reaction between 2 moles of propane (C₃H₈) and 5 moles of oxygen (O₂) produces carbon dioxide (CO₂) and water (H₂O). What is the limiting reactant?

Answer: To determine the limiting reactant, we need to calculate the moles of each reactant that would react stoichiometrically. The balanced chemical equation for this reaction is:

From the equation, we can see that 2 moles of propane react with 5 moles of oxygen. Therefore, 2 moles of propane would react with:

$$2 \text{ moles C}_3\text{H}_8 \times (5 \text{ moles O}_2 / 2 \text{ moles C}_3\text{H}_8) = 5 \text{ moles O}_2$$

Since we only have 5 moles of oxygen, which is the exact amount needed to react with 2 moles of propane, oxygen is the limiting reactant.

Question: A mixture of 100 grams of iron oxide (Fe_2O_3) and 200 grams of carbon monoxide (CO) reacts to form iron (Fe) and carbon dioxide (CO_2). What is the limiting reactant?

Answer: First, we need to convert the masses of the reactants into moles:

$$100 \text{ g Fe}_2\text{O}_3 \times (1 \text{ mole Fe}_2\text{O}_3 / 159.69 \text{ g Fe}_2\text{O}_3) = 0.626 \text{ moles Fe}_2\text{O}_3$$

$$200 \text{ g CO} \times (1 \text{ mole CO} / 28.01 \text{ g CO}) = 7.14 \text{ moles CO}$$

The balanced chemical equation for this reaction is:

From the equation, we can see that 1 mole of Fe_2O_3 reacts with 3 moles of CO . Therefore, 0.626 moles of Fe_2O_3 would react with:

$$0.626 \text{ moles Fe}_2\text{O}_3 \times (3 \text{ moles CO} / 1 \text{ mole Fe}_2\text{O}_3) = 1.88 \text{ moles CO}$$

Since we only have 7.14 moles of CO , which is less than the amount needed to react with 0.626 moles of Fe_2O_3 , CO is the limiting reactant.

Question: A reaction between methane (CH_4) and chlorine (Cl_2) produces methyl chloride (CH_3Cl) and hydrogen chloride (HCl). If 10 grams of methane and 40 grams of chlorine react, what is the limiting reactant?

Answer: Converting the masses into moles:

$$10 \text{ g CH}_4 \times (1 \text{ mole CH}_4 / 16.04 \text{ g CH}_4) = 0.624 \text{ moles CH}_4$$

$$40 \text{ g Cl}_2 \times (1 \text{ mole Cl}_2 / 70.90 \text{ g Cl}_2) = 0.563 \text{ moles Cl}_2$$

The balanced chemical equation for this reaction is:

From the equation, we can see that 1 mole of CH_4 reacts with 2 moles of Cl_2 . Therefore, 0.624 moles of CH_4 would react with:

$$0.624 \text{ moles CH}_4 \times (2 \text{ moles Cl}_2 / 1 \text{ mole CH}_4) = 1.248 \text{ moles Cl}_2$$

Since we only have 0.563 moles of Cl_2 , which is less than the amount needed to react with 0.624 moles of CH_4 , Cl_2 is the limiting reactant.

Question: Consider a reaction between sodium (Na) and excess water. If 23 grams of sodium react, what is the limiting reactant?

Answer: Since sodium is reacting with excess water, we can assume that water is not the limiting reactant. Therefore, sodium is the limiting reactant.

Question: A mixture of 25 grams of magnesium (Mg) and 50 grams of hydrochloric acid (HCl) reacts to form magnesium chloride (MgCl_2) and hydrogen gas (H_2). What is the limiting reactant?

Answer: Converting the masses into moles:

$$25 \text{ g Mg} \times (1 \text{ mole Mg} / 24.31 \text{ g Mg}) = 1.03 \text{ moles Mg}$$

$$50 \text{ g HCl} \times (1 \text{ mole HCl} / 36.46 \text{ g HCl}) = 1.37 \text{ moles HCl}$$

The balanced chemical equation for this reaction is:

From the equation, we can see that 1 mole of Mg reacts with 2 moles of HCl. Therefore, 1.03 moles of Mg would react with:

$$1.03 \text{ moles Mg} \times (2 \text{ moles HCl} / 1 \text{ mole Mg}) = 2.06 \text{ moles HCl}$$

Since we only have 1.37 moles of HCl, which is less than the amount needed to react with 1.03 moles of Mg, HCl is the limiting reactant.
