Why do gifted kids struggle socially? These difficulties have their roots in asynchronous development. Gifted children have emotional, physical, and intellectual development that are not equal; not in 'sync' according to Miraca Gross, director of GERRIC (Gross, 2001). A gifted child understands concepts that he is not able to deal with emotionally.

Why do gifted students struggle in school? Academic challenges are often fun to students with exceptional intelligence, but constant pressure and no time to relax can wear this fun away. The heavy workload of an accelerated program can cause a lot of stress and strain on young minds. It can take a toll very quickly and lead to burnout.

What should be a priority for teachers of gifted students? NAGC notes that it is of the highest priority that teachers recognize "high ability" students and provide them with in-depth/complex instruction or refer them for assessment and related services.

Why do gifted students think differently? Gifted children are more advanced intellectually than their age peers. They can reason more rapidly and accurately with complex abstract material and this exceptional reasoning ability enables them to be more perceptive and insightful; grasping the essential elements of situations.

What is gifted social studies? Gifted students have the advantage of advanced classes in Social Studies. These advanced classes are distinguished by acceleration, enrichment, sophistication, and novelty. Gifted Social Studies is seen as a three-year program, in which students learn more than just the prescribed curricula.

Why is it difficult to identify gifted students? Gifted children may be hard to find when they don't meet our expectations. Some adults assume that all gifted children will shine academically, achieving straight A's. They may also assume that, because gifted children are so smart, they don't need scaffolding and support on their educational journey.

How to challenge gifted students in reading? Adding Depth and Complexity For instance, when reading a grade-level text, I would have my gifted students search for unanswered questions within the article or story, to consider different viewpoints, and look for trends, etc. This naturally extended the students' thinking and provided the basis for rich discussions.
