### Test of Genius

#### Page 232

##### Question 1:

Who was the first person to circumnavigate the globe?

**Answer: Ferdinand Magellan**

##### Question 2:

What is the chemical symbol for gold?

**Answer: Au**

##### Question 3:

What is the largest ocean in the world?

**Answer: Pacific Ocean**

##### Question 4:

Who wrote the novel "Pride and Prejudice"?

**Answer: Jane Austen**

##### Question 5:

What is the capital of France?

**Answer: Paris**

## **The Complete Idiot's Guide to CorelDRAW**

CorelDRAW is a powerful vector graphics editor that can be used to create a wide variety of designs, from simple logos to complex illustrations. However, getting started with CorelDRAW can be daunting for beginners. This article will provide you with a quick overview of the basics of CorelDRAW, so you can start creating your own designs today.

**Q: What is a vector graphic?** A: A vector graphic is an image that is made up of lines, curves, and shapes. Unlike bitmap images, which are made up of pixels, vector graphics can be scaled up or down without losing quality.

**Q: What are the basic tools in CorelDRAW?** A: The basic tools in CorelDRAW include the Selection Tool, the Shape Tool, the Text Tool, and the Zoom Tool. The Selection Tool is used to select objects in your design. The Shape Tool is used to create new shapes. The Text Tool is used to add text to your design. The Zoom Tool is used to zoom in and out of your design.

**Q: How do I create a new design in CorelDRAW?** A: To create a new design in CorelDRAW, click on the "File" menu and select "New". This will open a new document in CorelDRAW. You can then use the Shape Tool and other tools to create your design.

**Q: How do I save my design?** A: To save your design, click on the "File" menu and select "Save". This will open a dialog box where you can choose a file name and location for your design.

**Q: How do I learn more about CorelDRAW?** A: There are many resources available to help you learn more about CorelDRAW. You can find tutorials on the CorelDRAW website, or you can purchase a book or take a class on CorelDRAW.

**How do you go to the bathroom when climbing Everest?** Base camp has tents with something akin to a "toilet" — essentially a hole in the ground with drums beneath it that are regularly emptied. But once climbers start summiting, it's a bit of a free-for-all. Some expedition groups carry their own drums for waste, or climbers dig

holes in the snow to relieve themselves.

**How much does it cost to climb Everest?** Guided trips to climb Everest A Nepalese company offering a south side expedition might charge as little as \$35,000.00. On the North side the price for a Western guided trip is still higher at \$45 - \$60,000, while Nepalese guided trips are still in the region of \$30,000.00.

**How many people have died on Everest?** Since the early 1920s, more than 330 climbers have died on Mount Everest. 200 bodies remain on the mountain, the most famous one being "Green Boots". These maps provide some surprising insights into Everest's morbid geography.

**What happens to the human body on Mount Everest?** Most of the bodies lie where they passed, slowly decomposing and becoming part of the mountain's landscape. Each fallen climber leaves behind a story that speaks to the inherent allure, and danger, of Everest. May they all rest in peace.

**Do climbers shower on Everest?** While you are on Everest Base Camp adventure, you will notice a gradual shift in the type of shower facilities available as you ascend to higher elevations. The EBC trek features a variety of showering facilities varying according to the location, altitude, and the infrastructures available over there.

**How do I prepare my body for Mount Everest?**

**What is the cheapest person to climb Mount Everest?** As of 2021, the average cost for a place on a commercial Everest team, from either Tibet or Nepal, is US\$44,500. A minimalist attempt to climb Everest could be organised for about US\$20,000.

**Is Mount Everest free to climb?** Permits and Insurance The permit cost in Nepal is fixed at \$11,000 per climber. However, this does not include the cost of a local company to organize the permit (required by Nepalese law), which is \$2,500 per expedition.

**Why does it take 2 months to climb Everest?** The higher the peak, the more efficient our bodies must be at using oxygen, so the more we must acclimatize. The highest mountains in the world are over 8,000 meters (26,400?) and the air is so thin (low in pressure), it takes weeks for our bodies to even be able to survive at the

altitudes where we camp.

**Who died on Everest in 2024?** May 13 – Mongolian Usukhjargal Tsedendamba, 53, died on the SE Ridge after summiting, climbing with 8K Expeditions. May 13 – Mongolian Prevsuren Lkhagvajav, 31, died on the SE Ridge after summiting, climbing with 8K Expeditions.

**Who was the female corpse on Everest?** "The Tao of Everest" Francys Arsentiev's body was visible to climbers for nine years, from her death, May 24, 1998, to May 23, 2007.

**How many climbers' bodies are still on Everest?** According to the climbing community, to date, an estimated 300 people have died climbing Mount Everest, with approximately 200 bodies still on the mountain. Some of the dearly departed are visible on the mountain, while others are forever lost. It's not uncommon to walk over frozen bodies while summiting Mount Everest.

**What is the 2pm rule on Mount Everest?** The "2 o'clock" rule for climbing Mt. Everest stipulates that climbers must reach the summit by 2pm due to harsh weather conditions. Failing to do so can lead to dangerous consequences, including being caught in the death zone, descending in darkness, and facing plummeting temperatures.

**Is Sleeping Beauty still on Everest?** She died on Mount Everest on May 24, 1998, when she descended from the top of the tallest mountain after setting the record of the first American female to climb Everest without oxygen.

**What is the oldest body on Mount Everest?**

**Do Everest climbers wear diapers?** Climbers carry disposable bags for bodily waste and bottles for pee which they have to bring back. Also, some of the climbers wear diapers. It takes more time than you expected to build a tent on the mountain. Then, digging latrines on the frozen ground is out of the question because it takes more effort.

**What do climbers do when they have to pee?** Leave your climbing harness on to pee. With most harnesses, the stretchy leg loop connectors in the back don't even need to be unclipped.

**How do you shower while climbing Mount Everest?** Gas-heated Shower: Gas-heated showers are more common as you ascend and are usually found in teahouses at higher altitudes. Water is heated using gas boilers. It is more expensive than solar or cold showers, reflecting the increased difficulty of transporting fuel to higher altitudes.

**How much weight do you lose on Everest?** Genuinely speaking, trekking up and down in high altitude for 8-9 hours per day in the Everest Base Camp Trails obviously lose around 5-6 kg weight in 12 days trek. But, how much weight you lose depends on the intake of food, water, and proper rest during the trek.

**What is the Everest death zone?** Why is it called the death zone Mt Everest? In mountaineering, the death zone refers to altitudes above a certain point where the pressure of oxygen is insufficient to sustain human life for an extended time span. This point is generally tagged as 8,000 m (26,000 ft, less than 356 millibars of atmospheric pressure).

**Does your weight change on Mount Everest?** where  $g = 9.8 \text{ m/s}^2$  (approx) is the local acceleration due to gravity. However, if you climb up a very tall mountain, you will find that this gravitational force becomes a bit weaker. On the top of Mount Everest, you'll weigh just a bit less than you do at sea level.

**Do you need to pay to climb Everest?** A permit to climb Everest is approximately GBP £8,900 or USD \$11,000. In addition to this, you will need to pay a local Nepalese company to arrange your visa for you at a cost of approximately £2,000 or \$2,500 per group.

**Why is it so expensive to hike Everest?** Why is an Everest Expedition so expensive? Climbing Mount Everest involves extensive preparation, high-quality equipment, experienced guides, experienced Sherpas and strict safety measures, all of which contribute to the overall cost.

**Do people get paid for climbing Mount Everest?** While a Western guide can make about \$50,000 per season, Sherpas only earn about \$2,000 to \$5,000 per season, with bonuses if they reach the summit. That's far more than the \$48 average monthly salary in Nepal, but the job is also tremendously dangerous.

**How do you shower while climbing Mount Everest?** Gas-heated Shower: Gas-heated showers are more common as you ascend and are usually found in teahouses at higher altitudes. Water is heated using gas boilers. It is more expensive than solar or cold showers, reflecting the increased difficulty of transporting fuel to higher altitudes.

**Are there toilets on Everest?** In the lower altitudes and more populated areas like Lukla and Namche Bazaar, you'll find sit-down toilets similar to what you're used to back home. These are often available in the lodges and Everest Base Camp tea houses where trekkers rest.

**How do hikers go to the bathroom?** Use a trowel, stick, rock or boot heel to make a hole about 4 inches wide and 6 to 8 inches deep. If the ground is too hard or rocky to dig, try lifting a rock and use that spot. Replace the rock when you're done. Or carry your waste out in a bag.

**How do people sleep when climbing Mount Everest?** All the Systems recommended for 8000m use the Hispar 600 sleeping bag. In 'System 1' the bag is combined with the Xero down suit, in 'System 2' the Xero jacket and trousers, and in 'System 3' our revolutionary Double Down Suit. Systems 1 and 2 offer -40°C daytime performance and both are rated for -47°C at night.

**Why can't you boil water on Mount Everest?** At lower pressure or higher altitudes, the boiling point is lower. At sea level, pure water boils at 212 °F (100°C). At the lower atmospheric pressure on the top of Mount Everest, pure water boils at about 154 °F (68°C).

**Why can't you climb Everest in the summer?** Summer on Mount Everest is challenging and dangerous due to heavy rainfall, high humidity, and the risk of avalanches and landslides. Fog and cloud cover obstruct visibility, making navigation difficult. Unstable snow conditions caused by warm temperatures at lower altitudes further endanger climbers.

**Why do you climb Everest at night?** It's standard practice in mountaineering to start the summit bid of most alpine peaks during the night. The main reason is that colder temperatures make for more favorable terrain. Having a frosty atmosphere

reduces the likelihood of avalanche or rockfall by holding things in place.

**Do Everest climbers wear diapers?** Climbers carry disposable bags for bodily waste and bottles for pee which they have to bring back. Also, some of the climbers wear diapers. It takes more time than you expected to build a tent on the mountain. Then, digging latrines on the frozen ground is out of the question because it takes more effort.

**Do people drink alcohol on Everest?** It's then carried by yak to advanced Base Camp. What do you drink? "Tequila and coffee" jokes Adrian. "You can bring treats – like boxed wine for dinner, the occasional beer, Coca Cola." Stoked Roasters donates coffee to Alpenglöw because Everest climbers and guides LOVE coffee.

**Do people litter on Mount Everest?** Mount Everest's highest camp is littered with frozen garbage, and cleanup is likely to take years. Garbage collected from Mount Everest is piled before it is sorted for recycling in Kathmandu, Nepal.

**What do thru-hikers sleep in?** Most Triple Crown trail thru-hikers should be fine with a bag rated between 15 and 30 degrees. You know yourself, though. If you tend to sleep cold, opt for something rated to a lower temperature.

**Do people hike in jeans?** Wearing jeans hiking in the winter is a lot more normal than in the summer. In the summer wearing jeans hiking is very odd. Most people own a pair of shorts so just wear them. Wearing jeans in the summer is just straight-up uncomfortable.

**How do hikers stay clean?**

**Who is sleeping beauty on Mt Everest?** Francys Arsentiev, an American mountain climber who passed away on Mount Everest in 1998, was also known as the mountain's Sleeping Beauty. She succeeded in ascending the highest mountain in the world, but she passed away on the way back to the base camp.

**Do you shower when climbing Everest?** Showers. There are options for showers lower down on the trail, if you decide to use them. In some of the tea houses we use, you will actually have a shower and toilet in your room! However, many days on the trail, you will keep clean by using baby wipes and a bowl of warm water.

**How much weight do you lose climbing Everest?** Genuinely speaking, trekking up and down in high altitude for 8-9 hours per day in the Everest Base Camp Trails obviously lose around 5-6 kg weight in 12 days trek. But, how much weight you lose depends on the intake of food, water, and proper rest during the trek.

### **The Eye of Minds: The Mortality Doctrine – Unveiling the Mysteries**

**Q: What is The Eye of Minds: The Mortality Doctrine?** A: It is the first book in a fantasy series by James Islington, centering around Gavril Jax, a promising young mage who unravels a dangerous conspiracy that threatens his world.

**Q: Who is the main protagonist of the book?** A: Gavril Jax, a young man who possesses exceptional magical abilities but must confront his own fears and limitations.

**Q: What is the setting of the story?** A: The story takes place in a world where magic is a vital force and mages hold great power. The continent of Aethoria is divided into various realms, each governed by its own unique set of laws and customs.

**Q: What is the Mortality Doctrine?** A: A doctrine that dictates the use of magic and the lifespan of mages. It prohibits the creation of immortal beings and sets a finite lifespan for those who wield magical abilities.

**Q: What is the main conflict of the story?** A: Gavril uncovers a dangerous conspiracy that threatens to overturn the Mortality Doctrine, potentially unleashing chaos and destruction upon Aethoria. He must race against time to stop this threat before it consumes his world.
