**Why did RAM get rid of Dodge?** So, why did Chrysler break up these two brands? This process allowed for more focused development of new models. Dodge created the Dodge Challenger to compete with the Chevy Corvette sports car, while the RAM lineup could focus on creating more powerful engines and more resilient builds for Spanaway jobs.

**Who is the smartest in Classroom of the Elite light novel?** 1 Ayanokoji Kiyotaka Never Wanted To Be The Main Character Ayanokoji "Koji" Kiyotaka is by far the smartest in the Advanced Nurturing High School, despite the fact that he lands in Class 1-D. Koji's placement is largely due to the fact that he desperately wants to avoid drawing attention to himself.

**Is Ayanokoji evil?** In a flashback, Ayanokouji was a little kid in an organization called the White Room, with his father as the leader, which experiments on children. **What is Ayanokoji's IQ?** In my opinion, Ayanokoji's intelligence is off the charts, surpassing even child prodigies, as he possesses an IQ around 250. For reference, the IQ required to be classified as genius is 140. According to Mensa, and the highest recorded IQ is 230, scored by Terence Tao.

**Is Ayanokoji smarter than Light?** 2 Kiyotaka Ayanokoji (Classroom of the Elite) As a former White Room student, Ayanokoji can crack university-level exams and even beat computers at chess. However, he doesn't come off as someone special and blends into his environment. And that's precisely why Ayanokoji would have the upper hand against Light.

**Is Classroom of the Elite even good?** In conclusion, the Classroom of the Elite is a really good series with amazing characters and an engaging story.
