What is a creative approach to language that plays with meaning and the use of words in a non literal sense? An oxymoron is a figure of speech— a creative approach to language that plays with meaning and the use of words in a non-literal sense. This literary device combines words with contradictory definitions to coin a new word or phrase.

What instruments could John Coltrane play? Instruments. Coltrane started out on alto saxophone, but in 1947, when he joined King Kolax's band, he switched to tenor saxophone, the instrument he became known for playing. In the early 1960s, during his contract with Atlantic, he also played soprano saxophone.

What instruments are used in the Giant Steps by John Coltrane? "Giant Steps" was composed and recorded during Coltrane's 1959 sessions for Atlantic Records, his first for the label. The original recording features Coltrane on tenor saxophone, Paul Chambers on double bass, Tommy Flanagan on piano, and Art Taylor on

drums.

What religion was John Coltrane? While Pastor King sees explicit Christian symbolism in A Love Supreme, others point out that Coltrane took a much more general view. Coltrane was careful to say that while he was raised Christian, his searchings had led him to realize that all religions had a piece of the truth.

What brand of saxophone did John Coltrane play? He played a large part of his life on Selmer saxophones and adopted the Mark VI in 1960, with which he recorded A Love Supreme. The instrument, praised for its ergonomics and homogeneity of sound, offered him great flexibility and richness of sound in the bass and treble.

Who taught John Coltrane music? He also used the GI Bill to take music courses under the instruction of Dennis Sandole, who taught young Coltrane music theory and harmonic technique. Coltrane was not content with just studying music; he became very active on the music scene as a journeyman playing his saxophone whenever he could.

What is a Coltrane pattern? This article examines a common four note pattern which is sometimes referred to as the Coltrane Pattern or 1235 because it is constructed using the 1st, 2nd, 3rd, and 5th degrees of the scale as shown below. The first 1235 grouping has no 7th which means it can be applied over both major and dominant 7th chords.

What instrument did John Coltrane play on his popular hit my favorite things? It was the first album to feature Coltrane playing soprano saxophone. An edited version of the title track became a hit single that gained popularity in 1961 on radio.

What made John Coltrane so great? He was known for his lush tone and masterful control of the upper register. His incredible coordination allowed him to play the tones of chords in such rapid succession that they were referred to as “Coltrane's sheets of sound.” Coltrane was innovative in his use of improvisation and arrhythmic music.

Is John Coltrane a Catholic saint? Posthumously, he was made the patron saint of the St. John William Coltrane African Orthodox Church church in San Francisco, which holds jam sessions every Sunday that are "five-hour jam sessions

interspersed with liturgy, sermons, and fellowship." The 26 minute documentary film received awards at seven film festivals.

What was John Coltrane's personality like? A man with higher self-regard might have struck back or at least walked away for good, but Coltrane was an extremely humble, non-violent man. And with a young family and a growing habit to support, he desperately needed the pay.

What was John Coltrane's cause of death? John Coltrane was a major innovator of avant-garde jazz in the 1960s and yet he passed away at 41 years of age in 1967 from hepatitis B and hepatocellular carcinoma. Hepatocellular carcinoma also claimed major saxophone stylists Stan Getz in 1990 and Steve Lacy in 2004.

What mouthpiece did John Coltrane use? The Metal Otto Link mouthpiece was Coltrane's go-to mouthpiece for most of his career. It is a hard rubber mouthpiece with a metal shank and a large chamber. The metal shank gives it a brighter sound, and the large chamber provides a full-bodied tone. This mouthpiece is still popular among jazz saxophonists today.

Did John Coltrane play the piano? John Coltrane primarily played Tenor and Soprano Saxophone, though he also played Alto Sax and Flute. Miles Davis primarily played Trumpet, but also Flugelhorn, Piano and other keyboard instruments such as Synthesiser and Organ. Charlie Parker played Alto Saxophone and sometimes Tenor.
