Is 3 months enough to study for PE? The PE exam demands dedication. One Reddit user mentioned, "I know three people that are on their 3rd or 2nd try because they did not study enough for the first exam. 20 hours per week and 2-3 months you should be ok." Dedicating about 20 hours a week for 2-3 months is suggested as a good preparation strategy.

Is the PE exam changing in 2024? The PE Civil Exam specifications underwent updates in 2024 to center the exams around engineers' professional expertise. NCEES aims to enhance the evaluation of engineers within their particular discipline by removing the general knowledge areas that were assessed in the PE Civil Exams.

How much time should I spend studying for PE exam? When studying for the PE exam, there's no one-size-fits-all approach. However, based on the experience of several successful engineers, a solid study plan involves dedicating around 100-120 hours to preparation.

Is PE engineering hard? Ultimately, if you take the time to prepare, the PE exam really is not that difficult. The keys are being organized, keeping yourself focused, and maintaining unwavering composure. But always remember that NCEES is the national body that oversees the PE exam, so they will dictate the PE exam format.

What is the difference between PE and EE?
