

FOUR DIVERGENT STORY COLLECTION

[Download Complete File](#)

How many Divergent Four books are there? The trilogy consists of Divergent (2011), Insurgent (2012), and Allegiant (2013). A related book, Four (2014), presents a series of short stories told from the perspective of one of the trilogy's characters, the male love interest Tobias.

What happens in four a divergent collection? Tris, who is living secretly as a "divergent" (someone who fits into more than one group), decides to leave the faction in which she was reared (Abnegation) for Dauntless. The series follows Tris's exploration of her identity and her relationship with the character Tobias ("Four") Eaton, the leader of her new faction.

Is there a Divergent book with Four's perspective? Readers first encountered Tobias Eaton as "Four" in Divergent. His voice is an integral part of Allegiant. Readers will find more of this charismatic character's backstory told from his own perspective in Four: A Divergent Collection.

Is Four a full Divergent? If you've read Allegiant you'd know that Four isn't Divergent, he's a GD (genetically damaged) with an exception that he's aware during simulations.

Do Tris and Four have a baby? Ash is the daughter of Tris and Four. She is a divergent like her mother. She chose to stay in Dauntless.

Does Tobias date Christina? Allegiant - *SPOILER* Tobias and Christina fall in love!!

Why did Four fall for Tris? Throughout the story, Four begins to get closer with Tris, helped by his admiration of her bravery and selflessness. He becomes protective of her, growing concerned when he learns that she is also a Divergent, and also saves her from an attack by her desperate fellow initiates.

Does Four have a crush on Tris? Four said to Tris at the end of the book, "I might be in love with you. I didn't want to frighten you" or something like that and Tris tells him she wouldn't be scared and he says "Fine. I love you.", so yes, it did happen!

Was Tris Mom divergent? In Allegiant, Tris discovers that her mother is actually Pure (Divergent, which means that they are normal people like us, without genes that were modified) and comes from Milwaukee and not from Chicago (where Tris lived most of her life).

What is Four's real name in Divergent?

Do Tris and Four ever sleep together in the books? Tris and Four don't have sex until Allegiant. Tris and Four have sex. Once Tris and Tobias get to Candor headquarters, they find out that Zeke and Tori are traitors. Later, they show up at headquarters and are revealed not to be traitors but spies.

Why is Four called Four? During his initiation training, when he went through his fear landscape, it was discovered Tobias only had four fears, with the average being between ten and fifteen. As a result, his instructor, Amar, started calling him "Four." Tobias accepted it so he could escape his past.

What happens to Tobias after Tris dies? Tobias grieves Tris' death, as well as Uriah's removal from life support. He considers taking memory serum so he can start over and forget his pain. Christina stops him, reminding him that those actions aren't what Tris would have wanted. Two-and-a-half years later, Tobias is living in a peaceful Chicago.

What is the age gap between Tris and Four? Something that really bugged me when rewatching Divergent before watching Insurgent is the age difference between Tris and Four. In the movie it's 16 vs 24 according to the internet.

Why did Four leave Abnegation? Like Tris, Four grew up in Abnegation. At his choosing ceremony, he opted to transfer to Dauntless to escape his abusive father. Four serves as a trainer for new Dauntless initiates. He was given the nickname "Four" because he has only four fears: heights, shooting innocents, claustrophobia, and his father.
