**Question 10:** What is the importance of sustainable resource use? **Answer:** To ensure the availability of resources for future generations while minimizing negative environmental impacts.

**Question 11:** Name two ways to promote sustainable resource use. **Answer:** Reduce consumption, recycle and reuse materials.

**How often should I service my Kawasaki Ninja?** To maintain the bike properly all you need is: Oil change every 5000km or 3 months. This is because you'll be revving the bike high all the time, the little Ninja doesn't have that much power so revving up is a must ! Engine service for every 7500km, or 10.000km.

**What kind of oil does a 2011 Ninja 650R take?** Viscosity: SAE 10W-40.

**How often should I change my Ninja 650 oil?** How often to change Ninja 650 oil  
How often do you change the oil in a Kawasaki motorcycle? Mineral oil should be replaced every 2,000 to 3,000 miles, or at least once a year. Some experts may recommend a minimum of twice a year. Synthetic oil should be replaced every 7,000 to 10,000 miles, or at least once a year.

**What is the difference between Ninja 650R and er6f?** The ER-6f differs slightly from the Ninja 650R, as it features the passenger handlebars as standard (as does the ER-6n). In addition, the option of ABS brakes was made available for both the ER-6n and ER-6f. There is also a derivative of the ER-6 called the Versys which utilizes many of the same components.

**How many miles can a Kawasaki motorcycle last?** A bike like that if it's well maintained, ridden regular and not abused can last 100,000 miles. If it runs well and looks well maintained it can be a good buy. A bike not looked after with that kind of

mileage would be completely thrashed if it ran at all. Just don't pay too much.

**How often should you service motorcycle suspension?** So what's a reasonable interval? For sportbikes, simple replacement of fluids and seals at 10,000 miles will bring new life to the bike. Touring bikes and cruisers can probably double that interval before the service will offer noticeable improvements.

**How many miles per gallon does a 2011 Ninja 650 get?** Based on data from 17 vehicles, 807 fuel-ups and 120,250 miles of driving, the 2011 Kawasaki Ninja 650R gets a combined Avg MPG of 48.41 with a 0.37 MPG margin of error.

**Is a Ninja 650R fast?** The Ninja 650 can also reach that 131 mph mark, according to Top Speed. While the two bikes hit the same top speed in the U.S., this isn't the case everywhere.

**How much horsepower does a Ninja 650 2011 have?** As for the power figures, the bike delivered an output power of 72 hp with a peak at 8,500 rpm and 66 Nm (49 lb-ft) of torque available at 7,000 rpm.

**How far can a Ninja 650 go on a full tank?** It isn't that the bike has a bad range either, the 15-litre tank will get a theoretical 163 miles before it's run completely dry, based on the 49.41mpg I'm currently returning.

**What is the mileage of Ninja 650 engine?** The fuel economy of the Kawasaki Ninja 650 is around 50-55 mpg, depending on the riding style and conditions.

**How often should I change my motorcycle oil filter?** On most bikes, the recommended mileage to change the oil filter is every 2,000 to 3,000 miles. If you use synthetic oil, then you need to change the oil filter along with your change oil routine. It is also better to replace your oil filter with a new one if you frequently travel long distances.

**How fast is a Kawasaki er6f?** Kawasaki ER-6F Bike Overview It's quick, has a throttle that responds to your slightest touch and can cope with high speeds over 100 miles per hour before it starts to struggle so, not only is it a great run around to get you from A to B, but it also gives a big sense of adventure.

**What is the top speed of the Ninja 650 without the limiter?**

---

**What is faster Ninja 400 or 650?** The Kawasaki Ninja 650 can reach a top speed of approximately 130 mph. Whereas, the Kawasaki Ninja 400 can attain a top speed of 116.7 mph.

**What is the life expectancy of a Kawasaki engine?** If meticulously maintained you could get 2000-3000 hours out of a high quality air cooled engine like Kawasaki. Some folks have even gotten more.

**What is considered high mileage for a Kawasaki motorcycle?** 1. Know the numbers, but look beyond them. Generally, high mileage on a motorcycle is anywhere from 20,000 to 50,000 miles. For sport bikes, the high mileage number will be on the low end (usually around 25,000), while cruisers and touring bikes typically become high mileage in the 40,000- to the 50,000-mile range.

**How high is too high for motorcycle mileage?** High mileage for a motorcycle is between 20,000 to 50,000 miles. Smaller motorcycles like sports bikes are considered to be high mileage at between 20,000 to 30,000 miles. Larger models like cruisers and touring bikes are deemed high mileage at around 50,000 miles.

**How often should you change fork oil on a motorcycle?** As a general guideline, consider changing fork oil every 20,000 to 50,000 miles or every 1 to 2 years.

**How long do motorcycle clutch springs last?** The Average Lifespan of a Motorcycle Clutch On average, a motorcycle clutch can last between 20,000-60,000 miles or two years.

**What is the best service interval for a motorcycle?** So how often should you service your motorcycle? You'll need to change your oil and check your chain on a regular basis - every 6 months or 4,000 miles. Your tire pressure should be checked more frequently, at least once a month.

**What is the service interval for a Ninja 400?** Oil change interval: 3,000-7,000 miles depending on riding conditions. Air Filter: 11013-0767. Oil Filter: 16097-0008. Battery: 26012-0849.

**How often do I need to service my motorcycle?** You want your bike to be ride-ready at all times! So how often should you service your motorcycle? You'll need to

change your oil and check your chain on a regular basis - every 6 months or 4,000 miles. Your tire pressure should be checked more frequently, at least once a month.

**How often should you have a full service bike?** How often should I get my bike serviced? Most bikes need service for every 25 hours of riding time. So, if you ride about three hours each week, you should get your bike serviced every two months. Service at this interval will keep you riding smoothly and help your bike's parts last.

**How to maintain a Kawasaki Ninja?** Ensure to keep the chain clean and properly lubricated to prevent wear and tear. Check the tension regularly, and replace the sprockets if they show signs of wear. This simple maintenance routine ensures a smooth and efficient power transfer. The air filter is your Ninja's first line of defense against dust and debris.

**How often do you change the oil in a Kawasaki?** The Kawasaki recommend change for our bikes is now 7500 miles. A lot of you change more frequently than that. Hey, it's your money, so spend it however it makes you happy. That said, it's not necessary to change more frequently.

**How many spark plugs are in a Ninja 400?**

**How many miles can a Ninja 400 go on a full tank?** The Kawasaki Ninja 400 achieves an average fuel economy of around 47 mpg, making it one of the most fuel-efficient bikes in its class. Its fuel tank has a capacity of 3.7 gallons, providing a range of around 170 miles on a single tank of gas.

**What does a full service include on a motorcycle?** A full service would typically include changing engine oil/filter, primary, and trans fluids. After that a service would depend on the mileage and what is required in the service manual for the vehicle. Other things in a service would include checking brakes, tires, lights, brake fluid, and critical fasteners.

**How many miles can a motorcycle go without an oil change?** While it's important to look at and monitor the scope of your motorcycle stats, we generally recommend changing out your oil every 5,000 miles or once a year. We can assure you that routine maintenance, check-ups, and oil changes will provide your motorcycle with a healthier, longer life.

**Should I start my motorcycle every day?** While not required daily, periodic warm-ups prevent engine wear and ensure mechanical preservation, especially in colder weather. Maximum days a motorcycle can sit idle? Motorcycles can sit for several weeks; however, starting the engine occasionally prevents issues like battery drain and component seizing.

**What regular maintenance should be done on a motorcycle?**

**How do I know if my bike needs servicing?** Unusual Noises A quiet bike is a happy bike! Clicking, grinding, knocking, squeaking, rattling, or other unusual noises coming from your bike might signal that something needs adjusting, replacing, or servicing.

**How often should you service bike bearings?** CeramicSpeed headset bearings can be maintained once per year for most riders. \*Hot regions (average at or above 35°C/95°F), high humidity climates, riding in extremely sandy/desert like conditions or riding in constant rainy/wet conditions will result in more frequent maintenance needs.

**How often to change ninja 650 oil?** Kawasaki says change oil/filter every 7.5k miles.

**Is a Kawasaki Ninja good for long distance?** It was hard to hand the keys back after thousands of miles on this top-notch supersport tourer. The Ninja 1000 SX is a highly capable, comfortable and entertaining travel companion, with all the power and tech a rider needs packaged into a great-looking, great performing multi-purpose platform.

**What is the real mileage of Kawasaki Ninja?**

**What is the Flash the human race about?** Two comic book juggernauts collide in this story featuring Wally West! As well as the Flash, the other members of the Justice League make an appearance, as he is made to race across time and space, (even crossing his own timelines causing no end of continuity problems!) and if he stops, the human race is forfeit.

**Why does Thawne look like Barry?** Prior to discovering the time capsule containing the Flash's costume, The Post-Crisis extended origin storyline "The Return of Barry Allen" revealed that Thawne was once a scientist obsessed with his idol, even undergoing cosmetic surgery to resemble his hero.

**Why does The Flash turn evil?** In the comics, the name "Dark Flash" has been used for several villainous speedsters or temporarily evil speedsters, namely for Barry Allen himself when he temporarily becomes the Negative Flash for being corrupted by the Negative Speed Force and for his arch nemesis, Eobard Thawne, when he becomes the Reverse-Flash.

**Why is Thawne obsessed with Barry?** When he was a child, Eobard Thawne witnessed his father murder his mother thus traumatizing the boy for life. In his loneliness and solitude, he became obsessed with the Flash, Barry Allen, a heroic speedster from the 21st Century and idolized him for his heroic deeds and superpowers.

**Why did Thawne turn evil?** For years, there's never been much of a mystery regarding what makes Eobard Thawne tick. The character has made it abundantly clear that his obsession with speed and his overwhelming hatred for Barry Allen is what drives his murderous acts in the Arrowverse.

**Is Thawne Barry's brother?** Malcolm Thawne is the lost twin brother of Barry Allen.

**Is Thawne pure evil?** Professor Zoom is one of three villains from the DC Animated Movie Universe to be Pure Evil, along with Darkseid and Talia al Ghul. He is one of four versions of Eobard Thawne to be Pure Evil, along with his Comic-book version, his Arrowverse self, and his Dark Multiverse self.

**Is Thawne good or bad?** Professor Eobard Thawne (commonly known as Professor Zoom) first appeared in The Flash #139 (September 1963). The archenemy of Barry Allen, he is the first supervillain to be called the Reverse-Flash.

**Why is Thawne immortal?** As a result, Reverse-Flash can do things like travel back in time and alter the time stream without wrecking time itself. Eobard Thawne's connection with the time-stream has made him seemingly completely immortal. He's displayed the power to regenerate his body and even displayed evidence of being

immortal.
