**What questions should I ask about the prologue of the Canterbury Tales?**

General Prologue Discussion Questions When do you think this story is taking place? How can you tell that this is the timing? What is a pilgrimage? What personal connections or associations do you have to the idea of making a pilgrimage?

**What are the essential questions of The Canterbury Tales?**

**Who is the only real person mentioned in the prologue of the Canterbury Tales?** The Tabard Inn was a real place and was owned by Harry Bailey, a friend of Geoffrey Chaucer's. Harry becomes the character known as the Host. He is the only real person described in the story. The other characters are probably a combination of other people Chaucer saw around him.

**What is the main idea of the Prologue to The Canterbury Tales?** In The Canterbury Tales General Prologue, the narrator begins by setting the scene for the reader. It is April and pilgrims are preparing for a pilgrimage to Canterbury in order to visit the shrine of the "blisful martir", St. Thomas Becket, so that they might thank him for delivering them from sickness.

**What is Chaucer's main purpose in the prologue?** The narrator falls in with a group of pilgrims, and the largest part of the prologue is taken up by a description of them; Chaucer seeks to describe their 'condition', their 'array', and their social 'degree'. The narrator expresses admiration and praise towards the pilgrims' abilities.

**What purpose does the prologue serve in The Canterbury Tales?** The primary function of these opening lines is to provide a physical setting and the motivation for

the Canterbury pilgrimage. Chaucer's original plan, to have each pilgrim tell two stories on the way to Canterbury and two more on the way back, was never completed; we have tales only on the way to Canterbury.

**What are 3 reasons The Canterbury Tales are important?** The Canterbury Tales is important for several reasons. It is a great resource for learning about Middle English; it paved the way for later writers like William Shakespeare; and it provides a lot of insight into life in medieval England.

**What is Chaucer's main objective in The Canterbury Tales prologue?** Final answer: Geoffrey Chaucer's main objective in 'The Prologue' of The Canterbury Tales is to introduce his cast of characters, effectively presenting a cross-section of 14th-century society.

**What is the main theme of The Canterbury Tales?** "The Canterbury Tales" main theme is renewal. The story is set in spring, which symbolizes new life, and the pilgrims are on a journey seeking spiritual renewal.

**What is the importance of the prologue in Canterbury Tales?** The General Prologue is, arguably, the most familiar part of the Canterbury Tales. It frames the longer story collection by setting the season, describing the pilgrims who will narrate the tales, and laying the ground rules of the storytelling contest.

**What does the General Prologue of The Canterbury Tales symbolize?** The springtime symbolizes rebirth and fresh beginnings, and is thus appropriate for the beginning of Chaucer's text. Springtime also evokes erotic love, as evidenced by the moment when Palamon first sees Emelye gathering fresh flowers to make garlands in honor of May. The Squire, too, participates in this symbolism.

**Who is the important character of Prologue to Canterbury Tales?** In the prologue of "The Canterbury Tales" the following characters are mentioned: Chaucer, Harry Bailly (the Host), the Knight, the Squire, the Yeoman, the Prioress, the Nun, the three priests, the Monk, the Friar, the Merchant, the Clerk, the Sergeant of Law, the Franklin, the Haberdasher, the Carpenter, the Weaver, ...

**What is Chaucer's main objective in the Prologue of The Canterbury Tales?** Final answer: Geoffrey Chaucer's main objective in 'The Prologue' of The Canterbury

Tales is to introduce his cast of characters, effectively presenting a cross-section of 14th-century society.

## **What are some questions for the City of Ember?**

**What happens in city of Ember Book 3?** Lizzie takes an interest in Tim (abandoning her earlier hope of becoming Doon's girlfriend), while Lina gets a horse named Fleet and becomes a messenger as she was in Ember. The last chapter reveals that Lina and Doon eventually fall in love and have children together.

---

**What is the moral lesson of The City of Ember?** The primary message of the novel is to always remain human. For example, even though Lina and Doon are children, they have both retained their humanity throughout the book.

**What is the secret message in The City of Ember?** Answer and Explanation: The message of DuPrau's The City of Ember is that people in advantageous or powerful positions often give into greed. There is so much darkness in Ember, Lina. It's not just outside, it's inside us, too.

**Do Lina and Doon get married?** Yeah! Doon and Lina get married and eventually have children of their own. One of Lina's descendants often liked to look at the pictures of the city Lina drew in Ember and marveled over how Lina had perfectly drawn the city that Lina herself didn't live long enough to see.

**Is there a City of Ember book 5?** The City of Ember series is a trilogy, concluding with The Diamond of Darkhold. We recommend starting with book one and reading them in order, finishing with the prequel The Prophet of Yonwood. There is also a great City of Ember graphic novel.

**What does Lina Mayfleet look like?** Description. Lina is slender, and has long dark hair. When she first appeared, she wore a ragged cape and loose socks which slid down her feet.

**What is the main problem in The City of Ember?** The main conflict in The City of Ember is the city itself. Its resources are dwindling and the city is dying, and Doon knows this but feel powerless to stop it, which causes him great internal strife.

**What is the main point of The City of Ember?** The story is about Ember, a post-apocalyptic underground city threatened by aging infrastructure and corruption. The young protagonists, Lina Mayfleet and Doon Harrow, follow clues left behind by the original builders of the City of Ember, to safety in the outside world.

**What is the big idea of The City of Ember?** Selfishness, Greed, and Corruption  
Rather, Ember is plagued by more than just the darkness of power outages: food, medicine, and supply shortages mean that everyone lives in a somewhat desperate state, while at all levels of Ember's government and administration, power, secrecy...

**Why does The City of Ember exist?** The city was built to keep the people of Ember out of harm's way, protecting them as multiple other wars and plagues ravaged the overground.

**What are the 5 components of data communication?** 11.2 COMPONENTS OF DATA COMMUNICATION These are sender, receiver, communication medium, the message to be communicated, and certain rules called protocols to be followed during communication. The communication media is also called transmission media.

**Who discovered data communication?** Donald Davies invented and implemented modern data communication during 1965-7, including packet switching, high-speed routers, communication protocols, hierarchical computer networks and the essence of the end-to-end principle.

**What is the concept of data communication?** Data communication is the process of transferring data from one place to another or between two locations. It allows electronic and digital data to move between two networks, no matter where the two are located geographically, what the data contains, or what format they are in.

**What are the characteristics of data communication?** Data communications are the exchange of data between two devices via some form of transmission medium such as a wire cable. The effectiveness of a data communications system depends on four fundamental characteristics: delivery, accuracy, timeliness and jitter.

**What are the five 5 elements of communication explain?** Communication comprises five key elements: verbal communication, non-verbal communication, microexpressions, active listening, and defenses. Verbal Communication. Verbal communication uses spoken words to convey an idea or message. This includes the tone of voice used as well as facial expressions and gestures.

**What are data communication models?** Also referred to as the Transfer Control Protocol/Internet Protocol (TCP/IP) model, it combines the top three OSI layers into a single layer, making it a five-layer model consisting of a physical layer, data link layer, network layer, transport layer and application layer.

**Who is the father of data communication?** Claude Shannon's work had profound implications for various fields, including telecommunications, computer science, and

cryptography. His ideas formed the basis for the development of digital communication systems, data compression algorithms, and error correction techniques.

**What was the first data communication?** The first data communications in wide use were the drum-like beats and or smoke signals used by tribes to communicate over short to medium distances. The first electronic data communication method in wide use was the telegraph.

**Who is the father of data scientist?** Data analysis and foundations of data science. John Tukey contributed greatly to statistical practice and data analysis in general. In fact, some regard John Tukey as the father of data science. At the very least, he pioneered many of the key foundations of what came later to be known as data science.

**What are the methods of data communication?** Data communication methods are direct-access, outside-execution, and during-execution. These methods coordinate the communication of data for tasks, including concurrent access to data. Generated function code must honor the data communication methods that target environment services use.

**What is needed for data communication?** The essential components of data communication are: Message: Information (data) to be communicated (e.g., text, numbers, pictures, video) Sender: The device that sends the data message (e.g., computer, video camera) Receiver: The device that receives the message (e.g., a computer, workstation, television)

**What is a protocol in data communication?** protocol, in computer science, a set of rules or procedures for transmitting data between electronic devices, such as computers. In order for computers to exchange information, there must be a preexisting agreement as to how the information will be structured and how each side will send and receive it.

**Why do we need data communication?** The main objective of data communication and networking is to enable seamless exchange of data between any two points in the world. This exchange of data takes place over a computer network. Data refers to the raw facts that are collected while information refers to processed data that

enables us to take decisions.

**What is the difference between data communication and networking?** Data communications refers to the transmission of this digital data between two or more computers and a computer network or data network is a telecommunications network that allows computers to exchange data. The physical connection between networked computing devices is created using either a cable or wireless device.

**What are standards in data communication?** Data communication standards are the rules and guidelines that specify how data should be named, formatted, documented, and visualized. They help to ensure that data is consistent, accurate, and understandable across different platforms, systems, and audiences.

**What are the 5 main components of information system?** The Components of Information Systems. Information systems can be viewed as having five major components: hardware, software, data, people, and processes. The first three are technology. These are probably what you thought of when defining information systems.

**What components are part of the 5 step communication model?**

**What are the components of communication?** The communication process involves understanding, sharing, and meaning, and it consists of eight essential elements: source, message, channel, receiver, feedback, environment, context, and interference.

**What are the five types of communication systems?**
