What is the Cyclops Ranko Marinkovic about? Book overview In this semiautobiographical novel, Croatian writer Ranko Marinkovic recounts the adventures of young theater critic Melkior Tresic, an archetypal antihero who decides to starve himself to avoid fighting on the front lines in World War II.

Does Cyclops have a girlfriend? His first and most enduring love interest is his current wife, Jean Grey, with the two having a daughter, Rachel Summers, from an alternate future. Other significant love interests include his ex-wife Madelyne Pryor—a clone of Jean and mother of his son Cable—and fellow X-Man Emma Frost.

What does Cyclops love most? Food, not love, is his goal in life. His cave is stuffed with cheese (9.216-224), and the arrival of travellers he regards simply as an exciting new dining opportunity (9.287-290). The only affection the Homeric Cyclops shows is to his prize ram, which he imagines mourning at the blinding of it's master (9.447-460).
