It's a way to cut off all - and we mean all - of that damaged hair you may have from relaxers, too much heat and/or too much colour in order to release those beautiful curls that are hiding within. Will plopping work on straight hair? Plopping can give straight hair a nice, natural-looking bend and volume at the crown. Use a lightweight styler like a mousse to plop straight hair.

Why doesn't the Curly Girl Method work? Hair that is naturally fine or low-porosity may struggle to absorb excess moisture, leading to lackluster results or even damage. Balancing moisture levels is crucial, and a one-size-fits-all approach may not be suitable for everyone.
