

# Bmw r1200gs service

## Download Complete File

**What is the service interval for a 2007 BMW r1200gs?** The first-gen 2004-2009 air/oil-cooled Hexhead BMW R 1200 GS has 6000 mile / 10000 km service intervals, at which BMW recommends you change the engine oil, change the oil filter, check and adjust valve clearances, and do a series of other checks on the motorcycle (including checking for leaks and lubrication needs).

**What are the service intervals for BMW motorcycles?** 1 year / 6,000 miles, whichever occurs first.

**What is BMW 1200 mile service?** 1,200-Mile Running-In Service This service will include: Changing the engine oil and filter. Changing the rear axle differential oil.

**What is BMW standard service schedule?**

**What is the average mileage of BMW r1200gs?** The ARAI mileage of BMW R1200 GS is 19 kmpl.

**What is the recommended service interval for a BMW?** This is called the "Safety & Oil Service" that BMW usually recommends that you do every 15,000 miles or 12 months. It involves verifying the function of many of your car's basic components, including the brakes, horn, windshield wipers, engine coolant, rubber belts, suspension and tires.

**How many km is a BMW service interval?** How Do You Know When You Need A Service? Your car is due for a service if 12 months, or 15,000 kilometres have passed since your vehicles last inspection. Newer models of BMW vehicles will alert you when you are due for a service using the Condition Based Servicing (CBS) dashboard display.

**What are the service intervals on a BMW GS 1250?** It's 6000 miles or 12 months - whichever arrives soonest. If you do only 2K a year, you would still service it at the 12 month mark since the last service. If you do 6K in 3 months since the last service, you need to service it again.

**How much oil does a GS 1200 take?** In theory the bike should take the full 4 litre capacity but, just in case, don't add all 4 litres of new oil at this point, just add 3.5ltrs or so. The oil level should show about midway in the oil level sight glass.

**How do you know if your BMW needs a service?** How do you know when you need a service? Your car needs to be serviced if a year has passed since the last service or if you've driven 10,000 miles. The brand's newest technology (BMW Service Tech) will let you know that you are due a service using its Condition Based Service (CBS) dashboard InfoDisplay.

**What is a full service on a BMW?** This is a comprehensive annual service for trouble-free motoring. It exceeds most manufacturer's service schedules and includes 77 checks and adjustments including an engine oil and oil filter change, air filter change, and a top up of brake fluid, power steering fluid and coolant.

**What is the fuel consumption of BMW R 1200 GS?** ARAI mileage of R1200 GS Adventure is 16 kmpl.

**How often should BMW transmission fluid be changed?** For most manual transmissions, you should change your fluid every 30,000 to 60,000 miles; for most automatic transmissions, you should change your fluid every 60,000 to 100,000 miles.

**How often should BMW brake fluid be changed?** When Should I Have My Brake Fluid Flushed? - Most manufactures suggest a brake fluid flush every two years, but there are other signs that your brakes need attention. One of the red flags that your brake fluid is low or not working properly is a spongy pedal.

**Is BMW scheduled maintenance worth it?** Given that BMW has an average upkeep cost of \$968, having a maintenance plan ensures you do the scheduled services as outlined in your owner's manual. This can reduce major repairs from happening in the future. Overall, it's a smart option to consider if you plan to use your

BMW dealership for services.

**How long does R1200GS clutch last?** You can easily get well over 100K miles if you don't overly slip it a lot. My '07 GS clutch slipped due to a transmission seal leak which fouled the clutch.

**How long will R1200GS last?** Many could reach 200.000 miles. Some could even reach 500.000 miles before any engine rebuild required! Boxer engine is unzerstörbar!

**Is the R1200GS fast?** How does going more than 170 mph on a BMW R1200GS sound? To the average person the idea might seem a bit strange — high top speeds and adventure bikes typically don't go together. But to Trev Richter it sounded like a challenge worth accepting.

**What is the BMW maintenance schedule?** If you drive a new or used BMW, you likely have questions about when you should bring it in to an authorized BMW service center for maintenance. The standard you should follow is two to three times a year, or every 5,000 miles.

**How often does a BMW need oil?** Drivers are recommended to have a BMW oil change and filter replacement every 10,000 miles or 12 months. However, depending on your driving habits and the particular BMW model you drive, you may need to get a BMW oil change more frequently.

**How long is BMW oil service?** On average, our BMW oil changes take about 30 to 45 minutes. If your BMW X1 or 5 Series needs additional services, your wait time may vary.

**What is BMW major service?** During our major service we will complete the following: Oil service. Engine oil top-up. Renew microfilters.

**Is BMW service every 2 years?** BMW Servicing When your BMW needs a service can depend on the mileage it's done, or after a certain time – every 10,000 miles, for example, or once a year.

**How many km do BMW engines last?** With a BMW you really want to make sure the basics are done on a regular schedule. It appears they start to die at about the

age of 20–22. Mileage usually is around 500 000 - 700 000km. Top end models engines last much less.

### **Why is BMW 1250 GS so popular?**

**What is the mileage of BMW GS 1250 full tank?** It has a fuel tank of 20 L and a claimed mileage of 15 kmpl. The BMW R 1250 GS starts at Rs 20.55 Lakh Rs (ex-showroom, Delhi). It is available in one variants.

**How much oil does a BMW GS 1250 take?** 4 quarts of Genuine BMW motor oil - Don't settle for other oil just because "it costs less".

**What is the best oil for a BMW 1200gs?** 20W-50 will be ideal, although we have just introduced the Power 1 Racing 10W-50 full synthetic which is BMW preferred grade now for the boxer engines, so if it's run in and you want a higher performance product, the Power 1 Racing would be the best oil for protection and performance – but Only BMW will carry it."

**How to check oil on BMW GS 1200?** Stop and leave the engine ticking over until the radiator fan comes on, turn off the engine and then wait for five minutes before checking that the oil is between the minimum and maximum level on the sight glass with the bike in a upright position. If at the lower level add 0.8 litre of oil to bring it up to maximum.

**How much oil does a BMW r1200gs rear diff take?** 180 ml according to BMW dealer since 2008. Reason: to avoid churned oil.

**How many km is a BMW service interval?** How Do You Know When You Need A Service? Your car is due for a service if 12 months, or 15,000 kilometres have passed since your vehicles last inspection. Newer models of BMW vehicles will alert you when you are due for a service using the Condition Based Servicing (CBS) dashboard display.

**How much oil does a 2007 BMW r1200gs take?** In theory the bike should take the full 4 litre capacity but, just in case, don't add all 4 litres of new oil at this point, just add 3.5ltrs or so. The oil level should show about midway in the oil level sight glass.

**What are the service intervals on a BMW GS 1250?** It's 6000 miles or 12 months - whichever arrives soonest. If you do only 2K a year, you would still service it at the 12 month mark since the last service. If you do 6K in 3 months since the last service, you need to service it again.

**What is the service interval indicator on a BMW?**

**How many km is a BMW oil change?** The recommended mileage for your vehicle could be anywhere from 5,000 km to 15,000 km depending on what you drive. Think your vehicle may be due for an oil change? Don't wait. Book an appointment online with our service department today!

**Does BMW recommend transmission fluid change?** Your BMW's transmission fluid is supposed to be replaced between every 30 to 60 thousand miles, and if it isn't, then it may start to smell. A sweet or burning odor could be the transmission fluid (although it could also be the coolant.)

**How many km do BMW engines last?** With a BMW you really want to make sure the basics are done on a regular schedule. It appears they start to die at about the age of 20–22. Mileage usually is around 500 000 - 700 000km. Top end models engines last much less.

**What is the fuel range of BMW R1200GS?** With a fuel tank capacity of 33 litres, this bike can go upto 432 kms on full tank.

**What is the fuel consumption of BMW R1200GS?** As for the claimed fuel efficiency, the BMW R 1200 GS Petrol variant returns 18.00 Kmpl.

**How much gear oil does a BMW R1200GS take?** OIL + FLUID CAPACITIES (Litres) Gearbox 0.70l > 0.90l (SAE 75W-90 Hypoid gear oil) \*\*Fill oil to bottom edge of filler hole as different year models have varying oil quantities! Clutch fluid Vitamol V10 (NEVER USE BRAKE FLUID!)

**What is a full service on a BMW?** This is a comprehensive annual service for trouble-free motoring. It exceeds most manufacturer's service schedules and includes 77 checks and adjustments including an engine oil and oil filter change, air filter change, and a top up of brake fluid, power steering fluid and coolant.

---

**How often should I get BMW serviced?** Despite popular belief, not every BMW needs to be serviced at the same mileage milestone. However, BMW does recommend that you get a service every year or if you drive your car a lot, every 10,000 miles.

**Why is BMW 1250 GS so popular?**

**How do I know if my BMW needs service?**

**How often do I service BMW?** BMW Preventative Maintenance: Every 5,000 Miles  
The current BMW maintenance schedule is based on a standard 5,000-mile interval, although a Condition Based Service monitor will track key areas and alert you if other services are required. Routine BMW recommended maintenance includes: Vehicle check and inspection.

**Can I drive my BMW with service light?** While the service engine light means it is safe to drive your car to a service and repair shop, it also means you shouldn't continue to operate your vehicle. If you do, you will most likely see the check engine light on next, which means a failure to your car is imminent.
