enhance their worship experience through the power of music.

Tiger Generator TG950: Your Guide to Power Efficiency

The Tiger Generator TG950 is a popular portable power generator renowned for its reliability and efficiency. Here are some commonly asked questions about the TG950, along with their answers:

1. What is the power output of the TG950?

The Tiger Generator TG950 delivers a maximum power output of 950 watts, making it suitable for powering small appliances, tools, and electronics.

2. How long can the TG950 run on a single tank of fuel?

With a 1-gallon fuel tank, the TG950 can operate for up to 8 hours at 50% load, providing ample power for extended use.

3. Is the TG950 easy to use?

Yes, the TG950 features a user-friendly control panel with a simple start/stop switch, fuel gauge, and circuit breaker. It also has ergonomic carry handles for easy transportation.

4. What safety features does the TG950 have?

The TG950 incorporates several safety mechanisms, including an automatic low-oil shutdown to prevent engine damage, as well as overload protection to safeguard your devices.

5. Is the Tiger Generator TG950 a good investment?

With its durable construction, efficient performance, and affordable price point, the Tiger Generator TG950 is an excellent investment for anyone seeking a reliable portable power solution. It's ideal for camping trips, emergency situations, or as a backup power source during power outages.

What is the 2nd position on a violin? The concept of second position is simple: using first position as a reference, second position is when the first finger is placed where the second finger would be in first position. All other fingers move up

GROSIR ALAT TULIS KANTOR ATK SURABAYA TOKO ATK MURAH

accordingly. Here is an image of a left hand in second position.

What is the second position on a violin fingerboard? Finger Patterns in Different Violin Positions The second position is when you move your hand up one note, and your first finger is placed where your second finger was in the first position and the other fingers also move up one note each.

How do you play the second finger on the violin?

How many finger positions are there in a violin? Since there are four strings (G, D, A, and E), and 13 finger positions, there are a total of 52 possible finger positions (56 counting the open notes). Since you must move your hand in order to play all those finger positions, we will also define a total of six different hand positions.

Is first or second violin harder? Playing second violin is more difficult from the musical point of view, because it needs both the ability to sympathise with that lower register and assume that slightly darker colour of the viola, and then the ability to take the soloist's role.

Where do 2nd violins sit? Symphony orchestras have two separate violin sections, and there are two ways to seat them: all the violins on the conductor's left, or "divided," with the first violins on the left and second violins on the right.

When should I learn second position violin? After fifth position you want to get into second position. Second position is an excellent position to work in and to know because it's called for a lot of early concertos that you're going to start learning.

How do I shift to the second position on a violin?

Is there a 5th position in violin? 5th position is higher on the fingerboard and (varies slightly from violin to violin) is located close to where the body of the violin begins.

How do you memorize finger placement on A violin?

Do you use your pinky when playing violin?

What is it called when you wiggle your finger on the violin? Finger vibrato is vibrato produced on a string instrument by cyclic hand movements. Despite the

name, normally the entire hand moves, and sometimes the entire upper arm.

Are my fingers too short for violin? Small hands or shorter fingers don't need to stop you from learning the violin. There are steps you can take to make playing violin with small hands a bit easier and help prevent overuse injuries.

What finger is F on a violin? Violin Fingering F Note F Natural on the D String- Place your second finger low, a half step close to your first finger. F Sharp on the D String - Place your second finger high (towards the scroll). It should be a whole step away from your first finger.

Do violinists have strong fingers? As a violinist, your fingers are one of your most valuable tools. Finger exercises can transform your playing, boosting dexterity, strength, and precision.

Is violin harder than piano? The violin is known for initially being a difficult instrument, particularly in mastering the correct intonation without frets and developing bowing techniques. In contrast, the piano offers more immediate gratification to beginners, as pressing a key results in a clear and correct tone.

Is Grade 8 violin hard? The Grade 8 list naturally has some of the most challenging repertoire for violin, that precedes ATCL diploma level and beyond. It also means the variety of what's available to choose from is substantially larger. There's everything from Bach to contemporary works, covering many different styles.

Is violin very hard? It is true, the violin is one of the most difficult instruments to learn - and for good reason. While it only has four strings, it presents its own set of unique challenges for beginning violin players. Anyone who has ever tried to play the violin has struggled at some point along the way.

Is second violin harder? If truth be known, a lot of what is required of the second violins is difficult even at times treacherous! They often have to play rapid intricate rhythms on the lower strings, which is difficult and tiring, and harmonies sometimes create awkward passages.

Is it good to be principal second violin? The principal 2nd violin is one of the best violinists in the group. The lower level orchestras rotate seating for different pieces, which is nice.

Can you sit and play the violin?

How long should a 13 year old practice violin? For Teenagers: Teenagers can continue to do very well practicing their musical instrument about 100 minutes each week. Advanced music students playing very complicated songs may need additional time. For the serious student, we recommend 45 minutes per day.

What age do most violinists start playing? If your child is motivated and able to focus, between the ages of 5-7 is the ideal time to start violin lessons. But don't be put off if your child is a little younger or older. Talk to the music center or teacher and get their recommendation.

Is 14 late to start violin? Learning to play the violin can take place at any time in your life.

How long does it take to learn shifting on violin? Somewhere around the 2-3 year mark, you will learn how to shift your left hand higher up the fingerboard into third position. This will open up a whole new range of higher notes on the violin. The higher you shift on the e-string, the farther your range.

What is it called when you play two notes at the same time on violin? Double stops are a fundamental technique in which two notes are played simultaneously on a stringed instrument.

How do you move your fingers fast on the violin?

What is the second position on a string?

How do I shift to the second position on a violin?

What is the role of the second violin? The simplest answer is to say that usually the second violins play a supportive role harmonically and rhythmically to the first violins which often play the melody and the highest line of the string section.

What does II mean in violin? 'A' is also the pitch of the second string on the violin (E string = I, A String = II, D String = III, G String = IV).

How is the 2nd string tuned? Then moving down the fretboard, the 5th string (the A string) is tuned to A, the 4th string (D string) is tuned to D, the 3rd string (G string) is tuned to G, the 2nd string (B string) is tuned to B and the 1st string (high E string) is tuned to E.

What does it mean to be 2nd string? second-string. adjective. : being a substitute player as distinguished from a regular. Etymology. from the reserve bowstring carried by an archer in case the first breaks.

How to notate violin positions? The position can be indicated by ordinal numbers (e.g., "3rd") or a roman numeral (e.g., "III. pos", "III. Pos", or just "III"). The string can be indicated by string name (e.g., "sul G") or by a roman number (counting from high to low pitches, e.g., "II" for the A string on a violin).

What is it called when you play two notes at the same time on violin? Double stops are a fundamental technique in which two notes are played simultaneously on a stringed instrument.

How to shift smoothly on violin?

How do you move your fingers fast on the violin?

Is it good to be principal second violin? The principal 2nd violin is one of the best violinists in the group. The lower level orchestras rotate seating for different pieces, which is nice.

When should I learn second position violin? After fifth position you want to get into second position. Second position is an excellent position to work in and to know because it's called for a lot of early concertos that you're going to start learning.

Who is the leader of the second violin section? In an orchestra, the concertmaster is customarily the leader of the first violin section. There is another violin section, the second violins, led by the principal second violin.

What does F mean in violin? very very quiet. The two basic dynamic indications in music are: p or piano, meaning "soft or quiet". f or forte, meaning "loud or strong".

What does V mean in violin? Answer: The V above a note will normally mean "upbow" for a string player. But if it's upside down or under the note it could be a percussive accent (notice that the V as an accent has one side a little heavier than the other).

What does L and H mean on violin? the number tells you which finger to press. Its easiest if you have tapes like in the video to show you where the fingers go. "H" means to play a half step higher (in sound) than the normal position for the finger. "L" means to play a half step lower. Watch the video closely and play along to learn how it works.
