How do you become an academic writer?

How do beginners start academic writing? In order to have a strong structure, it's best to create an outline before you start writing. It'll help you keep yourself motivated and on track. It's much easier to write with a plan in mind than to write into a shapeless void. If you can, leave time for multiple drafts.

What are the 4 types of academic writing? The four main types of academic writing are descriptive, analytical, persuasive and critical. Each of these types of writing has specific language features and purposes.
