Anne Bogart's "What is a Director?"

Anne Bogart is renowned for her groundbreaking work in the field of theatre and performance. Her book "What is a Director?" provides a comprehensive exploration of the role and responsibilities of a director in contemporary theatre.

The Role of the Director

According to Bogart, a director is responsible for orchestrating all aspects of a theatrical production, from casting and rehearsal to the final performance. The director's primary goal is to convey the playwright's vision through the medium of live performance.

Bogart's Concept of Art Direction

Bogart believes that art direction is not simply about creating a visually appealing aesthetic. Rather, it involves the strategic use of all elements of production (e.g., lighting, sound, costumes) to enhance the audience's understanding and emotional connection to the play.

The Director in Film

In the context of cinema, the director holds a similar role of leadership and creative vision. The director's main job is to oversee the production of the film, from script development to casting, shooting, and post-production. The director collaborates

with various team members, including actors, writers, cinematographers, and editors, to bring the film to life.

Bogart's Viewpoints in Theatre

Bogart is widely known for developing the "Viewpoints" methodology, which provides a structural framework for creating and analyzing movement and performance. The six Viewpoints (Space, Shape, Time, Emotion, Movement, and Story) offer artists a systematic approach to exploring the physical, emotional, and psychological dimensions of performance.

Bogart's Legacy

Anne Bogart's work has had a profound impact on the world of theatre and performance. She has taught at prestigious institutions, directed innovative productions, and authored influential books that continue to inspire and challenge artists around the globe.

Key Points

- **The director's primary purpose** in preparing for production is to analyze the script and understand its underlying themes and objectives.
- **The director's relationship to their actors** is one of collaboration and guidance, nurturing their artistic growth and supporting them in creating authentic performances.
- **The most important thing about really good directors** is their ability to communicate their vision effectively and inspire their team to achieve excellence.
