Which is the toughest chapter in Class 11 Chem? What is the hardest chapter in class 11 chemistry? Organic Chemistry may seem easy at first, but it becomes challenging as you delve deeper into concepts like preparations. Thermodynamics and Equilibrium are considered the toughest chapters.

Which is the most important chapter in chemistry class 11? Equilibrium, Thermodynamics, Atoms, States of Matter and Chemical Bonding, and Molecular Structure are important physical chemistry chapters. Organic Chemistry – Organic Chemistry is the most important part of class 11 Chemistry.

How to guess mcq in chemistry?

Which reaction is not a redox reaction MCQ? Solution: Dissolving salt in water is not a redox reaction.

Which is the easiest chapter in chemistry? The easiest chapters in CBSE Class 12 Chemistry are Solid State, Solutions, Biomolecules, Polymers, and Chemistry in Everyday Life due to their straightforward concepts and factual content.

Which topic is hardest in chemistry? Organic Chemistry is considered the toughest part of the three parts as it involves various equations and reactions. As per the weightage, 35% of questions are asked from Organic Chemistry, 35% of questions are asked from Inorganic Chemistry, and 30% of questions are asked from Physical Chemistry.

What is the easiest topic in chemistry class 11?

Which chapter has highest weightage in chemistry class 11? The chapters with the most weightage are Chapter 12 Organic Chemistry and Chapter 13 Hydrocarbons, which have a combined weightage of 18 marks. In Organic Chemistry, information about electronic displacements in a covalent bond and Homolytic and heterolytic fission of a covalent bond is also present.

Which is the toughest chapter in class 11 physics? Rotational Motion, Waves, Thermodynamics, System of Particles and Rotational Motion and Gravitation are the hardest chapter in class 11 physics.

How to trick MCQ questions?

How to find MCQ answers quickly? The most critical way to answer MCQs accurately is to read and understand the questions carefully before answering. It's important to work on your comprehension skills so that you can read lengthy questions fast and are able to understand what's being asked, especially for clinically scenario-based questions.

How to memorize MCQs with answers? Study regularly leading up to the exam, and try to organize your notes in a way that makes them easier to remember. Making

flash cards, using mnemonic devices such as acronyms, drawing concept maps, or whatever suits your learning style and can help you learn more efficiently.

What reaction is never redox? In a redox reaction, the oxidation number of elements changes. Double-replacement reactions and acid-base reactions are not redox reactions as they involve recombination of ions or transfer of a hydrogen ion, respectively, without any transfer of electrons.

Which reaction is always redox? Final answer: Combination and decomposition reactions are always redox reactions. Redox reactions involve shifts of electrons between substances, a process characterized by both reduction and oxidation. In combination and decomposition reactions, oxidation states of elements change, hence they are redox reactions.

Is CaCO_3 a redox reaction? Correct option a $\text{CaCO}_3 \rightarrow \text{CaO} + \text{CO}_2$ Explanation: Redox reaction means the reaction in which oxidation as well as reduction takes place simultaneously. In this reaction there is no change in oxidation number of any atom. Hence this reaction is not a redox reaction.

Which is the hardest chapter in class 11 chemistry? Thermodynamics in Part 1 and Organic Chemistry in part 2. I think ionic equilibrium and thermodynamics. Most of the students face difficulty in Chemical Bonding. I think thermodynamics is the most difficult because here some of the concepts requires derivations like mathematics.

What is the hardest chemistry class? Organic Chemistry: It shouldn't surprise you that organic chemistry takes the No. 1 spot as the hardest college course.

Is chemistry easier than biology? For some, Chemistry may be considered more difficult due to the amount of math and abstract concepts involved, while others might find Biology challenging because of the amount of memorization required. You should consider your personal interests and previous experiences with these subjects when making your decision.

What is the toughest question in chemistry? the hardest chemistry question in the entire world-nothing could be considered hard it needs concept clarity which can be provided from various fields however experts consider "organic chemistry" as one

of the most difficult subjects in the study of chemistry it is always referred to as the "pre-med killer" questions ...

Is chemistry harder or physics? Chemistry is considered relatively easier than physics. Because studying chemistry involves understanding the concept and memorizing it, whereas studying physics involves more reasoning and philosophy.

Which is the easiest chapter in chemistry class 11?

What is the smallest topic in chemistry? The atom is also the smallest entity that can be envisaged to retain the chemical properties of the element, such as electronegativity, ionization potential, preferred oxidation state(s), coordination number, and preferred types of bonds to form (e.g., metallic, ionic, covalent).

What is the main topic of Class 11 chemistry? Nature of Matter, Dalton's Atomic Theory, Laws of Chemical Combination. Atoms and Molecules: Atomic and Molecular masses. Concept of molecular and molar mass, Chemical Reactions. Introduction to Electron, Proton and Neutron, Atomic Number, Isobars and Isotopes.

What is the simplest topic in chemistry? The BASIC nomenclature is probably the easiest thing to learn quickly in organic chemistry. Alkane, alkene, alkyne.

What is the hardest chapter in 11th maths? Which is the hardest chapter in maths class 11 CBSE? Circle, Parabola and Permutation and Combination are tough chapters of Class 11 Maths. What if I failed in maths in class 11? You will get another opportunity to pass it.

Which chapter is important in chemistry?

Which chemistry chapter is hardest for NEET?

Which is the toughest subject in class 11? Science Stream: The science stream is often considered the most challenging but also the most rewarding for students with a keen interest in mathematics, physics, chemistry, and biology. It opens up doors to various lucrative career options such as engineering, medicine, research, and technology.

Which is the toughest group in 11th standard? PCMB (The All-in-One Option)

This science stream option can be said to be the most difficult combination. It comes with all the subjects: Physics, Chemistry, Mathematics and Biology. Students who are interested in having engineering and medical options open for them can pick PCMB in their Class 11.

What is the hardest area of chemistry?

Which is the most difficult chapter in accounts Class 11? Which chapter is the most challenging in Class 11 Accountancy? Depreciation, Provisions, and Reserves, the seventh chapter of the Class 11 accountancy syllabus, is considered one of the longest and most difficult chapters.

Which is the easiest subject to take in class 11? All depends on your interests, if you have an interest in science then PCM or PCB will be easy for you.
