Term 1 Grade 12 Accounting Control Test: Sekhukhune District

Question 1:

Define internal control and explain its five components.

Answer:

Internal control is a system of policies and procedures designed to achieve the following objectives:

- **Control over authorization:** Only authorized transactions are executed.
- **Control over record keeping:** Transactions are accurately recorded and documentation is maintained.
- **Control over assets:** Assets are protected from loss, theft, or misuse.
- **Control over performance evaluation:** Actual results are compared to planned results and remedial action is taken when necessary.
- **Control over information processing:** Accurate and timely financial information is provided for decision-making.

Question 2:

Describe the three types of internal control activities.

Answer:

- **Preventive controls:** Designed to prevent errors or fraud from occurring. Examples include segregation of duties and password protection.
- **Detective controls:** Designed to detect errors or fraud after they have occurred. Examples include bank reconciliations and internal audits.
- **Corrective controls:** Designed to correct errors or fraud and prevent their recurrence. Examples include making adjustments to accounting records and implementing new policies.

Question 3:

Explain the role of independent auditors in evaluating internal control.

Answer:

Independent auditors evaluate internal control to assess the reliability of financial statements. They review the components of internal control, test its effectiveness, and report their findings to management and external stakeholders. This helps organizations identify weaknesses in their internal control system and make improvements to ensure the accuracy and integrity of their financial reporting.

Question 4:

Describe the limitations of internal control.

Answer:

Internal control is not foolproof and has certain limitations, including:

- **Human error:** Internal control systems rely on human involvement, which is always subject to error.
- **Collusion:** Fraudulent activities can be concealed by collusion between employees.
- **Management override:** Management can override internal control procedures to meet their own objectives.

Question 5:

Explain how internal control can be improved.

Answer:

Internal control can be improved by implementing the following measures:

- **Regular internal audits:** Regular audits help identify weaknesses and areas for improvement.
- **Employee training:** Employees should be trained on internal control procedures and the importance of compliance.
- **Continuous monitoring:** Internal control systems should be continuously monitored and updated to address changing risks.
- **Use of technology:** Technology can enhance the effectiveness of internal control by automating tasks and providing real-time monitoring.
