**Speed Reading at the University of Waterloo: Questions and Answers**

**What is speed reading?**

Speed reading is a technique that aims to improve reading speed and comprehension. It involves skimming and scanning text to quickly identify key information, while retaining understanding of the material.

**How does the University of Waterloo teach speed reading?**

The University of Waterloo offers a Speed Reading Course through its Centre for Extended Learning. The course teaches students various speed reading techniques, including eye exercises, chunking, and previewing. These techniques help readers increase their visual span and focus, allowing them to take in more words per minute.

**What are the benefits of speed reading?**

Speed reading can provide several benefits for university students, including:

- **Increased reading speed:** Students can learn to read up to four or five times faster than their original speed.

- **Improved comprehension:** Contrary to popular belief, speed reading does not compromise comprehension. By forcing readers to focus on key information, it actually enhances understanding.
- **Time savings:** Reading faster frees up more time for other academic tasks, such as studying, research, and assignments.
- **Enhanced focus and concentration:** Speed reading exercises train the brain to stay focused for longer periods, improving overall cognitive function.

### Who can benefit from speed reading?

Speed reading is a valuable skill for any university student who needs to read large amounts of text. It is particularly beneficial for:

- Students with heavy reading loads
- Students who struggle with slow reading speeds
- Students who want to improve their comprehension and study habits
- Students who want to save time and increase efficiency

### Conclusion

Speed reading at the University of Waterloo is a practical technique that can significantly enhance students' reading skills. By utilizing the techniques taught in the Speed Reading Course, students can improve their reading speed, comprehension, and overall academic performance.

**What is intermediate level in Chinese?** Intermediate level. Having a proficiency level of or equal to HSK 2, or a vocabulary size of 300 words, or having about 50 hours total previous class time.

**How many words is intermediate Chinese?** Your speech should be close to natural speed. Reading: You can recognize 1,000 to 1,200 Chinese characters or around 3,000 frequently used Chinese words/phrases (including some colloquial and formal expressions) and read short articles modified for foreign students on topics as mentioned above.

**Are Chinese and Mandarin written the same?** Irrespective of the dialect spoken by the individual, Chinese must be written in the manner of standard Chinese (Mandarin), regardless of whether simplified or traditional Chinese characters are used.

**What writing system does Mandarin use?** Chinese writing, basically logographic writing system, one of the world's great writing systems. Like Semitic writing in the West, Chinese script was fundamental to the writing systems in the East.

**How long does it take to learn intermediate Chinese?** Approximately 3 years to achieve an intermediate level of Chinese.

**What level is fluent Chinese?** Lastly, the HSK Level 6 exam corresponds to the CEFR Level C2. This level is for highly proficient Chinese speakers with a near-native level of mastery of the language. You should also possess a vocabulary of over 5,000 characters and the ability to discuss a wide range of topics fluently.

**How many Chinese words do I need to learn?** 2500 words are about the minimum amount it takes to be “fluent” in Chinese. This is not as many Mandarin words as a native speaker knows, but it's enough to describe whatever it is you are trying to say.

**How long does it take to become fluent in Chinese as an English speaker?** According to the FSI scale, learning Chinese to reach native/bilingual proficiency will take about 2200 hours or 88 weeks of active learning if you are an English speaker.

**How hard is Chinese for English speakers?** Learning Chinese is significantly harder to learn than Spanish for native English speakers. According to the U.S. Foreign Service Institute, learning Chinese takes 88 weeks of full-time study. On the other hand, learning Spanish takes 24 weeks of full-time study.

**What is the hardest language to learn?** 1. Mandarin Chinese. Interestingly, the hardest language to learn is also the most widely spoken native language in the world.

**Do you say "I speak Chinese or Mandarin"?** If you are speaking to someone who may not be familiar with the various Chinese dialects, saying “I speak Chinese” is generally sufficient and understood to mean Mandarin.

---

**Can Chinese speakers understand Mandarin?** They are both tonal languages, though the tones are different and they are not mutually intelligible. As such, they cannot really be referred to as dialects because a Cantonese speaker cannot understand a Mandarin speaker and vice versa. In fact, this is the case with many of China's "dialects".

**How to start learning Chinese language?**

**How is Mandarin written and read?** Left-falling strokes are written before right-falling ones. Characters are written from top to bottom. Characters are written from left to right. If a character is framed from above, the frame is written first.

**What is Chinese writing called in English?** Chinese characters, also called Hanzi, are the oldest continuously used writing system in the world. Unlike the Roman alphabets, Chinese characters are used to illustrate meaning rather than sound. That's why learning to read Chinese requires a lot of memorization. There are over 100,000 different Chinese characters.

**Can I learn Chinese in 3 months?** With the right study techniques and attitude, you can make massive progress in Chinese in three months. And if having a Mandarin conversation is your primary goal, you can do so even if you're starting from zero.

**What level is intermediate Chinese?** For those who require a piece of paper to prove their level, the official Chinese exam is the ?????? (HSK) which assesses your listening, reading, and writing skills. The HSK is set at six levels: 1-2, beginner, 3-4 intermediate, and 5-6 advanced.

**Can Duolingo make you fluent in Chinese?** Completing the Chinese level of HSK6 will require you to learn about 5,000 Chinese words. Duolingo does not have that many words. At most, it'll get you somewhere beyond HSK3 but short of HSK4. If you see the screenshots below, you'll see the final 'levels' of Chinese with Duolingo.

**What is the hardest language to learn if you're Chinese?** Arabic is a language most Mandarin speakers will find challenging. Its writing system is an abjad, which functions very differently from both Chinese characters and the English alphabet because it uses letters to represent consonants but not all vowels, and it uses a

cursive script, so letters combine and change forms.

**Can I become fluent in Chinese in 1 year?** How long does learning Mandarin Chinese really take. On average, conversational skills can develop in 2 years, but expect the overall journey to fluency in Mandarin Chinese to take 3 or 4 years (2200 hours or 88 weeks of learning) for most students.

**How many characters in Chinese do you need to know to be fluent?** Out of the 80,000+ Chinese characters that exist, a working knowledge of just 2,000-3,000 characters is considered a good foundation for literacy in Chinese, and equips the reader to understand approximately 97-99% of modern texts.

**How many hours a day to learn Chinese?** It takes about 4-7 years (roughly 2200 to 4000 hours) to become fluent in every aspect of the language, if you spend at least an hour and a half to study every day. However, it's quite common for learners to become more fluent in some areas than others depending on how they allotted their study time.

**How can I memorize Chinese fast?**

**How many vocabulary words to be fluent in Chinese?** Characters Needed for Literacy and Fluency For effective day-to-day communication, a base of around 2,000 – 2500 commonly used characters is usually considered sufficient. In the HSK system, HSK 5 requires knowledge of 2500 vocabulary words and HSK 6 includes about 5000 vocabulary words.

**What is the meaning of intermediate level?** An intermediate stage or level is one that occurs between two other stages or levels.

**Is fluent better than intermediate?** Intermediate English serves as a functional level, enabling individuals to engage in everyday conversations, written communication, and basic interactions. On the other hand, Fluent English transcends functionality, reflecting a mastery that allows for articulate expression, even in intricate or specialized subjects.

**What is intermediate level in HSK?** The HSK Speaking Test (Intermediate Level) is for students who have studied Chinese 2-3 hours per week for 1-2 academic years and have acquired a vocabulary of approx. 900 words.

---

**What language level is intermediate?** CEFR-level B1 (intermediate) You can deal with most situations likely to arise whilst travelling in an area where the language is spoken. You can enter unprepared into conversation on topics that are familiar, of personal interest or pertinent to everyday life (e.g. family, hobbies, work, travel and current events).

**Is intermediate a beginner level?** Users with a skill score in the bottom part of the range are beginner, those with skill scores in the middle part are intermediate, and those with skill scores in the top part of the range are advanced.

**What grade level is intermediate?** The time spent in Intermediate school (6th – 8th grade) is a formal, operational stage of development for children. During this stage, your child will develop skills to logically solve problems, understand different views, and make plans for the future.

**How do you describe intermediate level?** Learners who achieve B1 Intermediate level can understand information about familiar topics. They can communicate in most situations whilst travelling in an English-speaking area. They can write simple connected texts on familiar topics.

**Is C2 native level?** A C2 level of English is essentially a native level. It allows for reading and writing of any type on any subject, nuanced expression of emotions and opinions, and active participation in any academic or professional setting.

**How do you know if you are intermediate in a language?** Intermediate language users have a stronger grip on the language than a novice user — Intermediate learners can create with the language, which means they can express themselves (and understand others) beyond formulaic phrases and memorized words.

**Is Duolingo good for intermediate?** Few Options for Advanced Speakers While Duolingo has a huge selection of lessons, its resources aren't vast and varied enough to propel intermediate and advanced students toward full fluency. Once a learner has completed a Duolingo program, they may go back and redo lessons and/or strengthen their skills.

**What level is intermediate Chinese?** For those who require a piece of paper to prove their level, the official Chinese exam is the HSK (HSK) which assesses your

listening, reading, and writing skills. The HSK is set at six levels: 1-2, beginner, 3-4 intermediate, and 5-6 advanced.

**What are the three types of Chinese language?** Jerry Norman classified the traditional seven dialect groups into three zones: Northern (Mandarin), Central (Wu, Gan, and Xiang) and Southern (Hakka, Yue, and Min).

**Which HSK is hardest?** Unlike Levels 1-6 which have their own exams, Levels 7-9 will be a single exam, where your performance will determine which Level you receive. The new Level 7-9 exams are not just more granular testing; they are substantially more difficult.

**What comes after intermediate?** Levels of proficiency in language learning are categorized into three main levels: beginner, intermediate, and advanced. These levels indicate the learners' ability and skills in the target language.

**What is an example of an intermediate language?** The CPU cannot directly execute a language generated from programming source code. Being platform-independent, the intermediate language (IL) is also called bytecode, p-code, pseudocode, or pseudo-language. Examples of intermediate languages are assembly languages, such as PL/I, BASIC, and Fortran.

**What level does Duolingo get you to?** The Duolingo Scottish Gaelic course contains 2933 words over 69 topic units, and by the end of it, you can expect to have a reasonably solid B1 level of vocabulary. Duolingo Spanish course is one of its most popular offerings, covering beginner to upper intermediate levels (A1-B2).
