[Download Complete File](#)

What is the most important chapter in Great Expectations? Chapter 28 of Charles Dickens' Great Expectations is a pivotal point of the protagonist Pip's life-journey of self-discovery and self-development.

Why did Estella marry Drummle? Estella marries Drummle largely because the match was set up by her guardian, Miss Havisham. Outwardly, the marriage represents the union of two people from the upper class. It also reveals the insidious desire of Miss Havisham to take revenge on every man who loved Estella.

Did Estella marry Mr. Jaggers? Estella flirts with and pursues Bentley Drummle, a disdainful rival of Pip's, and eventually marries him because she wants to break the other gentlemen suitor's hearts just like Miss Havisham told her to do.

Why did Estella reject Pip's love? Why does Estella reject Pip's love? Estella likely rejects Pip's love because she is incapable of feeling true emotion, and doesn't understand what it means to love someone. Because of her lack of emotion, she prefers to marry Bentley Drummle, who can give her wealth and social position.

What is the main message of Great Expectations? The main point of "Great Expectations" revolves around self-discovery, social mobility, and pursuing happiness. Through the journey of the protagonist, Pip, the novel explores the consequences of ambition, the complexities of identity, and the importance of personal integrity.

Why did Philip call himself Pip? As an infant, Philip Pirrip was unable to pronounce either his first name or his last; doing his best, he called himself "Pip,"

and the name stuck.

Why did Jaggers like Drummle? Jaggers is most interested in Drummle, whom he calls "the Spider," because he likes that Drummle looks "blotchy, sprawly, [and] sulky." Mr. Jaggers seems to be drawn to people like Drummle who are rough around the edges rather than upright and proper, which could explain his affinity for working with criminals.

Was Biddy in love with Pip? Even though Biddy expresses to Pip that she is in love with him before he leaves for London, Pip chooses to seek a higher social class. Pip is convinced that if he can become a gentleman, then the beautiful Estella from Miss Havisham's house will fall in love with him.

Why does Pip hate Drummle? Pip admits to Biddy that he still has feelings for Estella, after all this time. Drummle turned out to be an abusive husband (no surprise there) but he was eventually kicked to death by a horse, leaving Estella a widow.

Why did Biddy marry Joe? Joe marries Biddy (because Mrs. Joe was hit with a crowbar by local skeeve Orlick and died quite a while ago) and they have cute little children that remind everyone of the pure child Pip used to be. Estella marries and divorces sicko Drummle, and Pip learns a Very Good Lesson about ambition.

Who is the villain in Great Expectations? You might remember Miss Havisham, the withered, angry villain of Charles Dickens's Great Expectations.

Who does Pip marry at the end of Great Expectations? Despite Pip's renewed affection, living in London makes Joe increasingly unhappy, and one morning Pip finds him gone. Before leaving, he does Pip one last good turn, paying off all of Pip's debts. Pip rushes home to reconcile with Joe and decides to marry Biddy when he gets there.

Did Pip lose his virginity in Great Expectations? And the nadir: a seemingly respectable lady from the church is revealed to be a prostitute, hired by Miss Havisham to take Pip's virginity on his 18th birthday.

How did Abel Magwitch get rich? Magwitch had a number of jobs in Australia, including that of a sheep farmer and stock breeder, and became rich. He never forgot Pip's kindness to him and decided to do something for the boy, in part

because he reminded him of his lost daughter, who would have been about the same age as Pip.

Was Magwitch Estella's father? The plan is thwarted, however, when Magwitch is fatally wounded in an altercation with an old enemy. Soon thereafter, Pip learns that Magwitch is Estella's father.

What is the plot twist of the Great Expectations? As he gets his injuries from the fire treated, Pip realizes that Magwitch is Estella's father, something Miss Havisham never knew. The plan to get Magwitch out of England fails, and he is promptly arrested and injured. Pip visits him on his deathbed and reveals his Estella is still alive.

What is the conclusion of Great Expectations? In the original conclusion, Pip remains single and Estella remarries after Drummel's death. Great Expectations was Dickens's 13th and final finished novel before his death, and critics have called it his best romance and most honest story.

What is the moral behind Great Expectations? Ambition and Self-Improvement
The moral theme of Great Expectations is quite simple: affection, loyalty, and conscience are more important than social advancement, wealth, and class.

Does Pip lose his fortune? Pip and Herbert hurry back to effect Magwitch's escape. They try to sneak Magwitch down the river on a rowboat, but they are discovered by the police, who Compeyson tipped off. Magwitch and Compeyson fight in the river, and Compeyson is drowned. Magwitch is sentenced to death, and Pip loses his fortune.

What happens to Pip's sister? Mrs. Joe Gargery (Georgiana M'Ria) Pip's abusive older sister who constantly reminds Pip of all she has done for him, especially "raising him up by hand." She is attacked by Orlick and later dies.

Why did Philip go blind? Tragically, the ship is torpedoed, resulting in Phillip becoming stranded at sea with an elderly black man named Timothy and a cat named Stew Cat. While adrift, Phillip loses his sight, a condition Timothy attributes to Phillip staring at the sun too long.

Did Drummle abuse Estella? Estella enters into a disastrous and abusive marriage with Bentley Drummle. When he is killed she becomes a widow, free to associate with Pip once more.

Why is Joe's visit not a success? Because Pip worries that Joe will disapprove of his opulent lifestyle and that Drummle will look down on him because of Joe, Joe's visit is strained and awkward.

Does Jaggers fire Orlick? Orlick reappears in Pip's life, employed as Miss Havisham's porter, but is promptly fired by Jaggers after Pip reveals Orlick's unsavory past.
