**Did Thami love Mr M?** Thami regrets not trying hard to let Mr M know his true feelings (that he was involved in politics and that he loved him). Thami tells Isabel that he is leaving the country to join the movement.

**Why is Thami's position in the debate ironic?** The irony lies in the fact that while Mr M, the black teacher, wants to integrate his pupils into a system that doesn't grant them equal rights, Thami, his student, and a black activist wants to isolate them from it to fight for their rights.

**Who won the debate between Thami and Isabel?** Answer: The winner is determined by a show of hands in the audience. Seventeen people vote for Thami and twenty-four vote for Isabel, meaning she has won.

**Why do you think Mr. M cares so much about Thami and his future?** Mr. M's commitment to education therefore leads him to work within an oppressive system, which leads him into an ethical and political conflict with Thami. Mr. M has high hopes for Thami, whom he considers "a born leader" and wants to send to college with a scholarship from an English literature quiz competition.

**What is Thami's argument?** Thami opposes Isabel Dyson in a debate that Mr M arranges between his school and hers and they "take a liking to each other". He rejects Mr M's views on the benefit of education and instead joins the school boycotts. He tries in vain to warn Mr M about the plot to burn down the school and kill Mr M.
