Q: What happened during your climb on Siula Grande?

A: In 1985, Simpson and his climbing partner, Simon Yates, were attempting to make the first ascent of the west face of Siula Grande. During their descent, Simpson fell and broke his leg. Q: How did you survive after Yates left you?

Q: What was it like to be left behind by your climbing partner?

A: Simpson has said that being left behind was one of the hardest experiences of his life. He felt betrayed and abandoned, but he also understood that Yates had no

Q: What advice would you give to other climbers?

A: Simpson advises climbers to be well-prepared for the risks of mountaineering and to never give up hope. He says, "If you find yourself in a difficult situation, remember that the human spirit is capable of amazing things."
