The Grammar of Urban African American Vernacular English (AAVE)

What is AAVE?

Urban African American Vernacular English (AAVE) is a distinct dialect of the English language spoken by many African Americans, particularly those living in urban areas. It has its own unique grammar, vocabulary, and pronunciation that sets it apart from other varieties of English.

What are the Grammatical Features of AAVE?

AAVE is characterized by several grammatical features that distinguish it from other forms of English, such as:

- The use of "be" as a present tense habitual verb (e.g., "He be workin' every day")
- The absence of the third-person singular present tense "-s" (e.g., "He work")

- The use of double negatives (e.g., "I ain't got no money")
- The use of "ain't" as a contraction of both "am not" and "are not" (e.g., "I ain't goin'")
- The use of "finna" as a future tense marker (e.g., "I'm finna go to the store")

Is AAVE a Separate Language from English?

No, AAVE is not a separate language from English. It is a dialect of English that has evolved alongside other varieties of the language. However, it has its own unique grammatical and lexical features that make it distinct from other varieties of English.

Is AAVE Considered "Proper" English?

The notion of "proper" English is a social construct that varies depending on the context and the speaker's sociocultural background. AAVE is not inherently "improper" or "correct," but its use may be perceived differently in different social settings. While it is important to be able to communicate in different registers of English for social and professional purposes, the value of AAVE as a legitimate dialect of the language should be recognized and respected.

Why is it Important to Understand AAVE?

Understanding AAVE is important for several reasons. It is a vital part of the African American cultural experience, and it allows for meaningful communication and cultural exchange between individuals from different backgrounds. Additionally, understanding AAVE can improve educational outcomes for African American students and foster greater equity and inclusion in society.
