Which country uses homeopathy the most? Indian Subcontinent is supposed to be the biggest market for Homeopathy and the system is most popular here though the system originated in Germany. India is the country with largest number of homeopaths and in this country Homeopathy seems to be best integrated within the society.

Why is homeopathy criticized? Its implausible basic assumptions, some of which contradict natural laws, do not lead us to expect that its remedies have any specific effect. In fact, there is no study or systematic review to date that reliably certifies homeopathy to have an effect beyond the placebo effect and other context effects.

Are homeopaths real doctors? Many homeopaths are also medical doctors (MDs), although homeopaths are licensed in almost every health profession category, including veterinarians. In most states, practitioners of homeopathy must be licensed health care providers. Several respected certification agencies exist.
