**Is the Volvo 240 a classic?** The Volvo 240 - A pioneer which became a classic.

**Why is the Volvo 240 so popular?** The car manufacturer may have initially built its reputation on safety with its establishment in the 1950s of three-point seat belts. But that sense of reliability grew into cultural cachet: As one dealer put it, the Volvo 240 is “the elbow-patched sweater of the car world.”

**When did the Volvo 240 come out?** In August 1974, Volvo presented a new car generation called the 240 series. From production start, there was a 2-door, 4-door and an estate version available. The 240-series had been developed from the 140-series and were quite similar to its predecessor, also with influences from the VESC safety concept car.

**How long will a Volvo 240 last?** The estimated lifespan of a Volvo 240 is 380,000mi, before reaching the life expectancy upper limit. Fuel type is a major factor when looking into a vehicles lifespan/life expectancy. We calculated all of the below figures by getting average mileage from scrapped vehicles of this exact make, model, year and fuel type.

**Are Volvo 240 rare?** There were over 2.8 million models built using the 240 designation over its entire run, with a further 177,000 nearly-identical 260s produced during the same period.

**Do Volvos age well?** It can also vary depending on the make and year of your Volvo. That being said, with the proper care the average lifespan of a Volvo is

typically 20 years with over 200,000 miles.

**What to look for buying a Volvo 240?** The steering- and suspension system of the Volvo 240 and 260 is very reliable. But of course they have some weak spots. Take a close look on the tie rods, steering rods, bushes of the wishbones, sway bars and the torque rods/support arms (and their silent blocs) of the rear axle.

**How safe is a Volvo 240?** In a major survey as recently as 1991, the Insurance Institute for Highway Safety, IIHS, cited the Volvo 240 Estate as the safest car on the American market." However, someone in the comment section of Facebook raised a good point: " The modern car did its job. It's meant to crush to preserve life."
