Lexicons are part of vernaculars and they include everything from standard words to colloquial language and slang.

What is the lexicon approach? The Lexicon-based approach uses pre-prepared sentiment lexicon to score a document by aggregating the sentiment scores of all the words in the document [45–47]. The pre-prepared sentiment lexicon should contain a word and corresponding sentiment score to it.

What is the concept of lexicon? A lexicon is a list of words that are used in a certain language, profession, or hobby, while a dictionary is a list of words commonly used in a lexicon and their definitions. Dictionaries also look at the history of the word's usage and its origins. A thesaurus is a book that lists alternative words or synonyms.
