The Color of My Words: A Conversation with Lynn Joseph

Q: What inspired you to write "The Color of My Words"?

A: "The Color of My Words" was born out of my own experiences as a woman of color navigating predominantly white spaces. I wanted to explore the complex interplay between race, gender, and language, and how they shape our identities.

Q: How does the book address the power dynamics surrounding language?

A: The book examines how language can be used as a tool of oppression and exclusion. It highlights the ways in which certain words and phrases can perpetuate harmful stereotypes and marginalize people based on their race, gender, or other marginalized identities.

Q: What do you hope readers will take away from the book?

A: I hope readers will develop a greater awareness of the power of language and its impact on our lives. I also hope they will be inspired to use language more consciously and inclusively, creating a more equitable and just society.

Q: What are some specific examples of the ways in which language can be used to exclude or marginalize?

A: Some examples include using gendered language ("mankind" instead of "humankind"), using racial slurs or stereotypes, and using language that assumes a white, male perspective. These subtle yet pervasive forms of exclusion can have a significant impact on people's sense of belonging and self-worth.

Q: What practical steps can people take to use language more inclusively and respectfully?

A: Simple steps like using gender-neutral language, avoiding offensive or stereotypical terms, and being mindful of the assumptions we make in our speech can make a significant difference. By being more conscious and intentional with our language, we can create a more welcoming and inclusive environment for all.
