7 Wonders: An Architectural Odyssey**

7 Wonders is a card drafting and strategy board game set in the ancient world, where players compete to build the most impressive wonders and civilizations. The game is designed for 2-7 players and can be played in about 30 minutes per player.

Gameplay

In 7 Wonders, players take turns drafting cards from a central display. These cards represent resources, buildings, technologies, and wonders. The cards are organized into three ages, and players must carefully choose which cards to draft each turn to optimize their strategy.

Players use the resources they collect to build buildings and wonders. Each building provides a unique ability, such as providing victory points, generating resources, or allowing players to interact with other players. Wonders are powerful structures that grant even greater bonuses, but they can only be built by meeting specific requirements.
